Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

Subject: RE: AK- SPEXS Smoke Test - Diver O

Asma,

O2 – Sent HA, received CS.

I am having problems with case # O3. I received this error "INVALID ELIGIBILITY DATE FOR WDRAW ACD". It may take me a bit to find someone her that knows the business rules for the date.

Thanks for your patience while I figure this out.

Lori

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Subject: RE: AK- SPEXS Smoke Test - Diver O

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori,

ST and DLN are still coming back as blank on the HB in error.

Can you please look?

Thanks,
Asma

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Subject: Region 4 Board of Directors Vacancy
Attachments: Region IV Board of Directors.docx; R-IV Board of Director's Guide 6-2017.doc

Good morning,

On behalf of Regional President Sarah Garcia, the Region 4 Board of Directors is looking for interested volunteers to serve on the Region 4 Board. The current Board Member At Large vacancy is to fill the remaining term of a recent board member who has left for another agency. The term expires in May 2018 with the possibility of additional board opportunities.

Expectations are to attend two in-person Board meetings a year (a day and a half meeting held in mid-December and a one day meeting immediately preceding the Region 4 conference). In addition, several conference calls are usually held throughout the year. Travel expenses to the Board meetings and the Regional Conference will be covered by the Region.

I have attached a listing of current Board members in case you want to reach out. I've also attached a copy of the Region 4 Board of Directors Guide which provides details on expectations of Board members.

I am confident Board members will tell you that they have found serving on the Board to be both an informative and rewarding experience.

If you are interested in volunteering, please reach out to Sarah Garcia or myself to let us know of your interest. We would appreciate hearing from you no later than November 22, 2017.

Please let me know if you have questions or need additional information. Thanks much!

Julie Knittle

1.0 Introduction

The American Association of Motor Vehicle Administrators is a voluntary, nonprofit, tax exempt, educational organization of state and provincial officials in the United States and Canada, responsible for the administration and enforcement of laws pertaining to the motor vehicle and its use.

The AAMVA's scope of operation encompasses states of the U.S., Canadian provinces, and territories of both countries. Its principle endeavors are to:

- Develop model programs in disciplines related to motor vehicle administration, traffic law enforcement, and highway safety, and act as a repository for specific programs in these disciplines;
- Serve as an information clearinghouse for these same disciplines; and
- Serve as a united voice for these interests and related issues.

The founders wisely perceived that while many problems of motor vehicle administration and police traffic services would be national and international in scope, much of the strength and actual operation of the total organization would depend on continued influence and functioning of regional organizations. Hence, the AAMVA Bylaws provide for four geographical regions. But it is equally apparent that there are many advantages to be gained by maintaining a national/international pattern of operation, designed to contribute to the overall strength of the Association.

For purposes of Regional/International continuity, this guide has been prepared to assist the Region IV, Inc. Board and its Officers in understanding their respective responsibilities and meeting these obligations.

2.0 The Governing Structure

The Region IV, Inc. governing body is the Board of Directors composed of the following officers and members:

- President
- Vice-President
- Treasurer
- Secretary
- Immediate Past President
- Two Members at Large representing all jurisdictions in Region IV including
- The Region IV Member serving on the International Executive Committee, if not a Region IV Officer or At Large Member
- One Law Enforcement Member at Large representing the law enforcement community of Region IV
- Any individual serving on the International Board of Directors, not listed, shall be a Member of the Region IV Board
- AAMVA President and CEO serves an Ex-Officio member of the Board

Please note the difference in terminology used for the AAMVA International Board. The Executive Committee at the International level is composed of five officers and the past International Chair only. The Board of Directors is the over all governing body and is composed of the four officers, the four immediate past presidents of the International Board, and three members from each Region.

All Region IV, Inc. officers shall hold office for one year. Their term of office begins and expires at the Region IV, Inc. Annual Meeting held at the Regional Conference.

According to the Region IV Bylaws, the Vice-President is nominated for a three (3) year term on the International Board of Directors during the year the person becomes Vice-President. The term of an International Board Member begins and ends at the Annual International Conference. Every fourth year, the Region will appoint a member to the International Executive Committee position of Secretary. *(See Region IV Inc. Bylaws.)*

NOTE: Traditionally, AAMVA Regional Officers “graduate” in succession from the office of Secretary to President. Thus Region IV, Inc. Officers should participate in AAMVA meetings, Board meetings, and conferences to prepare themselves to assume the position of President.

3.0 Board Member Expectations

This section provides information regarding the expectations for individuals serving on the Region IV Board of Directors. All Board members should actively participate in all Board meetings and conference calls, and should represent the interest of Regional members vs. solely representing their own jurisdiction / agency.

3.1 Secretary Expectations

- A. Serve as mentor to new Board members.
- B. Serve as mentor/guide to first-time Regional Conference attendees.
- C. Provide outreach and communications with jurisdictional members and new administrators as appropriate.
- D. Take minutes at all Board meetings, conference calls, and at the Annual Membership Meeting. Send draft to Regional Director for editing, distribution, and posting to SharePoint.
- E. Introduce and review prior meeting minutes at Board meetings and at the Annual Membership Meeting.
- F. Attend Region IV Board meetings and the Regional conference, and scheduled conference calls.
 - i. Actively participate in discussions at Board meetings and during conference calls, representing the interests of the Region and Regional members.
 - ii. Travel expenses for the winter Board/planning meeting and the Region IV conference will be paid by the Region.
- G. Represent the interests of Regional members in discussions/decisions.
- H. Occasionally review Region IV financial records posted to SharePoint.
 - i. Pose questions as appropriate/necessary to HQ finance or the Regional Director.
 - ii. Report any concerns to the Regional President.
- I. Reach out to Regional members, new administrators, and others as appropriate, and as requested by the Regional President and/or the Regional Director.
- J. Expect to assume Treasurer's position at conclusion of term as Secretary.

3.2 Treasurer Expectations

- A. Serve as mentor to incoming Secretary and new Board members.
- B. Serve as mentor/guide to first time Regional Conference attendees.
- C. Provide outreach and communications with jurisdictional members and new administrators as appropriate.
- D. Review financial documents each month to confirm fiscally responsible spending and recordkeeping.
Financials will be posted to the Region IV Board SharePoint site by the financial staff at AAMVA headquarters.
 - i. Pose questions as appropriate/necessary to HQ finance or the Regional Director.
 - ii. Report any concerns to the Regional President.
- E. Attend Region IV Board meetings and the Regional conference, and participate in scheduled conference calls.
 - i. Actively participate in discussions at Board meetings and conference calls, representing the interests of the Region and Regional members.
 - ii. Travel expenses for the winter Board/planning meeting and the Region IV conference will be paid by the Region.
- F. Report on the Region's financial status at each Board meeting, and to the membership at the Annual Membership Meeting.
- G. Lead the Memorial Service held during the Opening Session of the Regional conference.
- H. Reach out to Regional members, new administrators, and others as appropriate, and as requested by Regional President and/or Regional Director.
- I. Expect to assume the Vice-President position at the conclusion of Treasurer's term.
- J. Provide the Regional Director with a list of potential locales for the Regional conference to be hosted.
 - i. HQ/Regional Director will issue an RFP for the hotel and compile bids for review. HQ/RD will also make a site visit and report findings to enable final selection of a conference location. HQ/RD will negotiate contract and facilitate contract signing.

3.3 Vice-President Expectations

- A. Serve as mentor to incoming Treasurer and new Board members.
- B. Serve as mentor/guide to first time attendees at Regional Conference.
- C. Occasionally review Region IV financial records posted to SharePoint.
 - i. Pose questions as appropriate/necessary to HQ finance or the Regional Director.
 - ii. Report any concerns to the Regional President.
- D. Chair/lead Board meetings and/or conference calls in the absence of the President.
- E. Attend Region IV Board meetings and the Regional conference, as well as scheduled conference calls.
 - i. Actively participate in discussions at Board meetings and conference calls, representing the interests of the Region and Regional members.
 - ii. Travel expenses to the winter planning meeting and the Region IV conference will be paid by the Region.
- F. Appoint conference coordinator who will work with the Regional Director and HQ to plan the conference.
 - i. Conference coordinator may attend winter Board meeting held during term as President and will be part of the conference team the year prior to hosting/coordinating the conference.
 - ii. Travel expenses for conference coordinator will be paid by the Region.
- G. Prepare “come to XX” video to show at prior year’s conference. Footage can usually be obtained from the tourism agency in the city/jurisdiction that can be partially or fully used. Production of the video is at the cost of the agency/jurisdiction.
- H. Expect to assume President’s position at conclusion of term as Vice-President.
- I. Reach out to Regional members, new administrators, and others as appropriate, and as requested by Regional President and/or Regional Director.
- J. Serve as a Regional representative on the AAMVA International Board. (Election to the International Board takes place at the same time as election for Regional Vice-President.)

- i. Travel expenses to attend International Board meetings will be covered by the AAMVA International Board.

3.4 President Expectations

- A. Chair/lead Board meetings and conference calls.
 - i. At a minimum, meetings include the winter planning meeting (*December timeframe*), and pre-conference/summer (May-July) Board meeting.
 - ii. Conference calls will be scheduled on an ad hoc basis by the Regional Director.
- B. Serve as mentor to incoming Board members.
- C. Serve as mentor/guide to first time Regional conference attendees.
- D. Complete outreach to members and new Administrators as appropriate to introduce AAMVA and discuss the benefits of getting involved and/or to encourage participation.
- E. Attend Region IV Board meetings and the Regional conference, as well as scheduled conference calls.
 - i. Actively participate in discussions at Board meetings and conference calls, representing the interests of the Region and Regional members.
 - ii. Travel to the winter Board/planning meeting and Region IV conference will be paid by the Region.
- F. Occasionally review Region IV financial records posted to SharePoint.
 - i. Pose questions or address concerns as appropriate/necessary to HQ finance or the Regional Director.
- G. Serve as host for Regional Conference during term as President.
 - i. Work with Regional Director and jurisdictional conference coordinator on planning activities. Participate in planning of conference content, topics, and issues desired to be part of the sessions by the Committee Chairs, AAMVA staff, industry, federal partners, etc.
 - ii. Make recommendations and assist as needed in selection of off-site locations, optional activities, keynote speaker, entertainment, opening session officials, etc.
 - iii. Make recommendations on conference items/give aways as identified in the conference budget.

- iv. Identify beneficiary for charity auction.
- v. Determine special awards or contests to be given/held.
- vi. Store flags and flag stands and other materials from previous year's conference in a secure location after the year preceding the conference.
- vii. Chair Annual Membership Meeting at Regional conference.
- viii. Make appointments.
 - a. Appoint Regional Committee Chairs and Vice-Chairs as appropriate.
 - b. Appoint Nominations Committee eight (8) to 12 weeks prior to Regional conference.
 - c. Appoint Regional Board member vacancies, as they arise.
- H. Review and approve or deny travel grant applications, in line with the approved budget.
- I. Serve as a Regional representative on the AAMVA International Board.
 - i. Travel expenses to attend International Board meetings will be covered by AAMVA.
- J. Identify any unique or emerging issues/priorities for the Board during term of office.
- K. Anticipated expenses to the jurisdiction:
 - i. Printing /copying of conference materials (*tent cards, continuities, drink tickets, sponsor cards, registration signage, etc.*)
 - ii. At the President's discretion, agency vehicles are sometimes provided for on-site transportation.
 - iii. Approximately seven (7) to eight (8) agency staff to provide on-site support during the conference. Hotel expenses for the conference team will be paid by the Region. Other travel expenses are to be covered by the agency.

3.5 Immediate Past-President Expectations

- A. Serve as mentor to incoming President and new Board members.

- B. Serve as mentor/guide to first time Regional conference attendees.
- C. Provide outreach and communications with jurisdictional members and new Administrators as appropriate.
- D. Attend Region IV Board meetings and the Regional conference, and scheduled conference calls.
 - i. Actively participate in discussions at Board meetings and conference calls, representing the interests of the Region and Regional members.
 - ii. Travel to the winter Board/planning meeting and the Region IV conference will be paid by the Region.
- E. Occasionally review Region IV financial records posted to SharePoint.
 - i. Pose questions as appropriate/necessary to HQ finance or the Regional Director.
 - ii. Report any concerns to the Regional President.
- L. Chair Nominations Committee and present nominations to Region IV Board during their summer meeting and to the membership during the Annual Membership Meeting.
- M. Reach out to Regional members, new administrators, and others as appropriate, and as requested by Regional President and/or Regional Director.
- N. Serve as a Regional representative on the AAMVA International Board. Term on the International Board expires the same year as the Past President term expires on the Region IV Board.
 - i. Travel expenses to attend International Board meetings will be covered by the AAMVA International Board.

3.6 Member at Large / Law Enforcement Member at Large Expectations

- A. Serve as a mentor to incoming Board members.
- B. Serve as mentor to first time Regional Conference attendees.
- C. Occasionally review Region IV financial records posted to SharePoint.
 - i. Pose questions as appropriate/necessary to HQ finance or the Regional Director.
 - ii. Report any concerns to the Regional President.

- D. Attend Region IV Board meetings and the Regional conference, and scheduled conference calls.
 - i. Actively participate in discussions at Board meetings and conference calls, representing the interests of the Region and Regional members.
 - ii. Travel to the winter Board/planning meeting and Region IV conference will be paid by the Region.
- E. Reach out to Regional members, new administrators, and others as appropriate, and as requested by Regional President and/or Regional Director.

4.0 Board Decision Timelines

- A. Board decisions needed during the May-July Board meeting include:
 - i. Conference budget for the following year's conference.
 - ii. Travel grant funding to the Spring Workshop and Law Institute and the following year's Region IV conference.
 - iii. Any additional meeting expenditures for the following fiscal year including funding events such as the Region IV Chief Administrator meeting.
- B. Discussion topics for the winter Board/Planning meeting include:
 - i. Review/revisions to the Board of Director's Guide
 - ii. Conference budget actuals
 - iii. Travel grant funding actuals, if appropriate
 - iv. By law revisions, if appropriate
 - v. Upcoming Board vacancies and potential new Board members
 - vi. Planning discussion for the Region IV Conference
 - vii. Signing of Conflict of Interest Statements.

5.0 Conference Coordinator Expectations

- A. Assist Regional Director/HQ with conference planning activities.
 - i. Work as part of conference team during previous year’s conference (*may wish to also participate in conference calls prior related to previous year’s conference planning activities*) to learn the ropes.
 - ii. Participate in regularly scheduled conference calls with the RD (*frequency increases as conference nears*).
 - iii. Keep Regional President informed on planning progress and ask for guidance/decisions, as needed on conference planning activities.
 - iv. Keep Regional Director advised of Regional President’s wishes/concerns.
 - v. Identify and coordinate conference staff (*for pre-conference and on-site needs*).
 - vi. Provide list of potential local exhibitors/sponsors (*include company name, contact name, address, telephone number and e mail address*) no later than December 1 of the year prior to conference.
 - vii. Facilitate communication/assignments among conference staff.
 - viii. Provide recommendations, contacts and potentially pricing for local events/speakers/conference needs.
 - ix. Secure and confirm honor guard, anthem singers, and individual(s) to provide welcome for opening ceremony.
 - x. Request local entities/organizations to donate trinkets for registration bag, if desired.
 - xi. Print conference materials (*tent cards, continuities, drink tickets, sponsor cards, office/registration signage, etc.*).
 - xii. Serve as on-site jurisdictional coordinator during conference.
- 2. Travel required for the conference coordinator:
 - a. Board/planning meeting held prior to the conference (*December timeframe*).
 - b. A planning trip to conference locale.
 - c. Attend conference and two (2) to three (3) days of pre-conference activities.

- d. Appropriate travel expenses for conference related trips for the conference coordinator will be paid by the Region.

Asma,

I am still looking into the problem. We will not have a solution deployed before tomorrow at the earliest. I'll send you an email when I have more information.

Thanks for your patience.

Lori

Weird...fyi, the email is acting up again. I got Asma's response here but not Lori's previous one.

I'd say that if you don't get a response from each other and expect one, the phone option might be a good one.

Lori,

Sure, I wanted to call you too, but didn't have your number.

In case you need to reach out to be (hopefully there won't be any issues with the email today) , my desk number is 703-908-5779. If you can provide me a number where I can reach you too, that should be great.

Please re-try the CSOR for Driver O.

Thanks,
Asma

Subject: RE: AK- SPEXS Smoke Test - Diver O

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

Asma,

I finally figured out what was required to send the Withdrawal action.

03 – Sent HW, received CT.

I'll continue with Driver O. I have a meeting shortly so it may take me awhile to get through # 04 - # 08.

Lori

Lori,

For ACD Withdrawal Reason Code 'W28', DL Withdrawal Eligibility Date must be 'INDEF', I see that you are sending '20181030'.

Can you try this again with 'INDEF' as the DL Withdrawal Eligibility Date

Asma,

The Social Security Number for Driver O is not a valid number. It is 988-82-6666. The SSA doesn't allow numbers that start with 900 – 999 and our validation will not accept it. Can we change Driver O's number?

Subject: RE: AK- SPEXS Smoke Test - Diver O

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Subject: RE: AK- SPEXS Smoke Test - Diver O

Asma,

O2 – Sent HA, received CS.

I am having problems with case # O3. I received this error “INVALID ELIGIBILITY DATE FOR WDRAW ACD”. It may take me a bit to find someone her that knows the business rules for the date.

Thanks for your patience while I figure this out.

Lori

Subject: RE: AK- SPEXS Smoke Test - Diver O

Asma,

The Social Security Number for Driver O is not a valid number. It is 988-82-6666. The SSA doesn't allow numbers that start with 900 – 999 and our validation will not accept it. Can we change Driver O's number?

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Thank you, Asma. Monica (cc'd) will be starting the PDPS test with you first thing tomorrow – she'll set up the records today. Monica, remember it takes a day for NDR to add the PDPS pointers (unlike SPEXS which are immediate), so please add any pointers you will be using tomorrow before the end of the day.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Subject: RE: AK- SPEXS Smoke Test - Diver O

Thank you, Asma. Monica (cc'd) will be starting the PDPS test with you first thing tomorrow – she'll set up the records today. Monica, remember it takes a day for NDR to add the PDPS pointers (unlike SPEXS which are immediate), so please add any pointers you will be using tomorrow before the end of the day.

Subject: RE: AK- SPEXS Smoke Test - Diver O

Weird...fyi, the email is acting up again. I got Asma's response here but not Lori's previous one.

I'd say that if you don't get a response from each other and expect one, the phone option might be a good one.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori.

Thanks! We will continue when you are ready.

Mina,

In the meantime, we can proceed with the PDPS testing, if AK is ready.

Please let me know.

Thanks,
Asma

Subject: RE: AK- SPEXS Smoke Test - Diver O

Weird...fyi, the email is acting up again. I got Asma's response here but not Lori's previous one.

I'd say that if you don't get a response from each other and expect one, the phone option might be a good one.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori.

Thanks! We will continue when you are ready.

Mina,

In the meantime, we can proceed with the PDPS testing, if AK is ready.

Please let me know.

Thanks,
Asma

Subject: RE: AK- SPEXS Smoke Test - Diver O

Weird...fyi, the email is acting up again. I got Asma's response here but not Lori's previous one.

I'd say that if you don't get a response from each other and expect one, the phone option might be a good one.

Subject: RE: AK- SPEXS Smoke Test - Diver O

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

Subject: Windows UNI question

Hi Hab,

Though I know the mainframe UNI product fairly well, I'm still figuring out the Windows application. There is a function on the mainframe UNI tool that I can't seem to find on the windows version.

In this screen, I can see whether the record is inbound or outbound and can "resubmit it" accordingly. See the screenshot below for an example of how we resubmit a message inbound (to our UNI application). Can you tell me how I would do the same thing using the Windows UNI tool? Or, if you aren't the person to ask, who would I go to?

Subject: Windows UNI question

Hi Hab,

Though I know the mainframe UNI product fairly well, I'm still figuring out the Windows application. There is a function on the mainframe UNI tool that I can't seem to find on the windows version.

In this screen, I can see whether the record is inbound or outbound and can "resubmit it" accordingly. See the screenshot below for an example of how we resubmit a message inbound (to our UNI application). Can you tell me how I would do the same thing using the Windows UNI tool? Or, if you aren't the person to ask, who would I go to?

AAMVA Awards 2018 - Call for Entries!

Award submissions are due on December 22

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Joins State and Local Leadership to Support Senate AV START Act

Joining the National Governors Association (NGA), the National Conference of State Legislatures (NCSL), and numerous other leading state and local transportation officials, AAMVA has signed on to a [letter of support](#) describing the key successes and challenges associated with the Senate "American Vision for Safety Transportation through Advancement of Revolutionary Technologies Act" ([AV START Act](#)). The coalition cites the preference of the Senate language for numerous reasons, including the fact that "the AV START Act's approach appropriately establishes federal preemption by prescribing subject matters specifically to those contained in a safety evaluation report, thereby preserving the

historic federal partnership with state and local governments." [Read the Legislative and Regulatory Alert for more information.](#)

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Arkansas Conducts Online Inquiries and Updates in NMVTIS

AAMVA is very pleased to announce that Arkansas moved from online inquiries and batch updates to integrated online inquiries and updates in NMVTIS. Congratulations, Arkansas! For more information about NMVTIS federal compliance requirements, please contact [Marney Michalowski](mailto:Marney.Michalowski@aamva.org), NMVTIS Program Manager.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)

Tuesday, November 14, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 1](#)

Thursday, November 16, 2017, 2:00 - 3:00 pm (ET)

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxymphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

PARTNER NEWS

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. [Read more here.](#)

Transportation TV Special Report: Automated Vehicles in America

NCHRP has partnered with the American Association of State Highway and Transportation Officials (AASHTO) to develop a [Transportation TV Special Report video](#) on Automated Vehicles in America, featuring the results of [Strategies to Advance Automated and Connected Vehicles: Briefing Document](#). It provides 18 policy and planning options for government decision makers that could influence the private sector to deploy automated vehicle technology in ways that will help to achieve societal goals. The briefing document is based on [NCHRP Research Report 845: Advancing Automated and Connected Vehicles: Policy and Planning Strategies for State and Local Transportation Agencies](#).

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Arkansas Conducts Online Inquiries and Updates in NMVTIS

AAMVA is very pleased to announce that Arkansas moved from online inquiries and batch updates to integrated online inquiries and updates in NMVTIS. Congratulations, Arkansas! For more information about NMVTIS federal compliance requirements, please contact [Marney Michalowski](mailto:Marney.Michalowski@aamva.org), NMVTIS Program Manager.

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 1](#)

Thursday, November 16, 2017, 2:00 - 3:00 pm (ET)

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxyethylamphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

PARTNER NEWS

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 1](#)

Thursday, November 16, 2017, 2:00 - 3:00 pm (ET)

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxymphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

PARTNER NEWS

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. [Read more here.](#)

Transportation TV Special Report: Automated Vehicles in America

NCHRP has partnered with the American Association of State Highway and Transportation Officials (AASHTO) to develop a [Transportation TV Special Report video](#) on Automated Vehicles in America, featuring the results of [Strategies to Advance Automated and Connected Vehicles: Briefing Document](#). It provides 18 policy and planning options for government decision makers that could influence the private sector to deploy automated vehicle technology in ways that will help to achieve societal goals. The briefing document is based on [NCHRP Research Report 845: Advancing Automated and Connected Vehicles: Policy and Planning Strategies for State and Local Transportation Agencies](#).

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Arkansas Conducts Online Inquiries and Updates in NMVTIS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxyethylamphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

AAMVA Awards 2018 - Call for Entries!

Award submissions are due on December 22

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Joins State and Local Leadership to Support Senate AV START Act

Joining the National Governors Association (NGA), the National Conference of State Legislatures (NCSL), and numerous other leading state and local transportation officials, AAMVA has signed on to a [letter of support](#) describing the key successes and challenges associated with the Senate "American Vision for Safety Transportation through Advancement of Revolutionary Technologies Act" ([AV START Act](#)). The coalition cites the preference of the Senate language for numerous reasons, including the fact that "the AV START Act's approach appropriately establishes federal preemption by prescribing subject matters specifically to those contained in a safety evaluation report, thereby preserving the

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Arkansas Conducts Online Inquiries and Updates in NMVTIS

AAMVA is very pleased to announce that Arkansas moved from online inquiries and batch updates to integrated online inquiries and updates in NMVTIS. Congratulations, Arkansas! For more information about NMVTIS federal compliance requirements, please contact [Marney Michalowski](mailto:Marney.Michalowski@aamva.org), NMVTIS Program Manager.

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 1](#)

Thursday, November 16, 2017, 2:00 - 3:00 pm (ET)

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxyethylamphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

PARTNER NEWS

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Arkansas Conducts Online Inquiries and Updates in NMVTIS

AAMVA is very pleased to announce that Arkansas moved from online inquiries and batch updates to integrated online inquiries and updates in NMVTIS. Congratulations, Arkansas! For more information about NMVTIS federal compliance requirements, please contact [Marney Michalowski](mailto:Marney.Michalowski@aamva.org), NMVTIS Program Manager.

Thursday, November 16, 2017, 2:00 - 3:00 pm (ET)

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxyethylamphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

PARTNER NEWS

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. Thursday, November 16, 2017, 2:00 - 3:00 pm (ET)

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxyethylamphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

PARTNER NEWS

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxyethylamphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due THIS WEDNESDAY, **November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Arkansas Conducts Online Inquiries and Updates in NMVTIS

CVSA Releases Results from Brake Safety Day

On Sept. 7, 2017, enforcement personnel throughout Canada and the United States conducted 7,698 inspections on commercial motor vehicles as part of the Commercial Vehicle Safety Alliance's (CVSA) Brake Safety Day. Fourteen percent of the vehicles inspected were placed out of service specifically for brake-related violations. The goal of Brake Safety Day is to conduct roadside inspections, and identify and remove vehicles with critical brake violations from our roadways in an effort to reduce the number of crashes caused by or made more severe by brake system deficiencies on commercial motor vehicles. AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

DEADLINE APPROACHING: Apply for AAMVA Leadership Academy

Applications for the AAMVA Leadership Academy are due **THIS WEDNESDAY, November 15, 2017**. The [Leadership Academy](#) provides professional development opportunities for future leaders in the AAMVA community. This program is designed for jurisdiction employees who have demonstrated leadership potential and the ability to succeed in positions of greater responsibility within their agencies. The program will take place **April 30 - May 3, 2018**. Attendees must have the approval and support of the Chief Administrator of their agency to apply. All expenses will be paid by AAMVA. This week-long program will include modules on defining leadership, team work and collaboration, organizational performance management, and more. It is an intense training opportunity focused on the unique characteristics of leading and managing a motor vehicle or law enforcement agency. The [draft course outline](#) provides more information on what topics will be included. If you are interested, please fill out the [application form](#) and send it along with your resume to [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org). Class size will be limited to eighteen participants and we can accept only one application from each member agency. If you have any questions regarding this program, please contact: [Janice Dluzynski](mailto:Janice.Dluzynski@aamva.org) or 703-908-5842. See what prior participants had to say about the AAMVA Leadership Academy in [this video](#).

Arkansas Conducts Online Inquiries and Updates in NMVTIS

AAMVA is very pleased to announce that Arkansas moved from online inquiries and batch updates to integrated online inquiries and updates in NMVTIS. Congratulations, Arkansas! For more information about NMVTIS federal compliance requirements, please contact [Marney Michalowski](mailto:Marney.Michalowski@aamva.org), NMVTIS Program Manager.

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 1](#)

Thursday, November 16, 2017, 2:00 - 3:00 pm (ET)

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Saskatchewan: Tougher Consequences for Impaired Drivers Who Transport Children

Drivers with a blood alcohol content (BAC) of .04 or higher who transport children will face even longer roadside licence suspensions and vehicle seizures under newly-introduced legislation. The Traffic Safety Amendment Act, 2017 implements an immediate seven-day administrative driving suspension on a first offence for a person who transports a child under the age of 16 and has a blood alcohol content (BAC) of .04 or higher, refuses to undergo a field sobriety test or fails a field sobriety test. This is an increase from the current three-day roadside suspension. This is in addition to any jail sentence, fine, demerit points and additional sanctions that result from the impaired driving conviction. [Read more here.](#)

FEDERAL NEWS

DOT Certain Schedule II Drugs to the Department of Transportation's Drug-Testing Panel

The Department of Transportation [is amending](#) its drugtesting program regulation to add hydrocodone, hydromorphone, oxycodone, and oxycodone to its drug-testing panel; add methylenedioxymphetamine as an initial test analyte; and remove methylenedioxymphetamine as a confirmatory test analyte. The revision of the drug-testing panel harmonizes DOT regulations with the revised HHS Mandatory Guidelines established by the U.S. Department of Health and Human Services for Federal drug-testing programs for urine testing. This final rule clarifies certain existing drugtesting program provisions and definitions, makes technical amendments, and removes the requirement for employers and Consortium/Third Party Administrators to submit blind specimens. This rule is effective on January 1, 2018.

NHTSA to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) has [announced](#) a new information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol.

NHTSA: A Thanksgiving One-Day Highway Safety Community Media Blitz

Thanksgiving has become one of the deadliest times of the year on America's roads because "Thanksgiving Eve," the Wednesday before the holiday, has become one of the year's biggest drinking days. Whether it's young people home from college or adults who know they have the next day off from work, Thanksgiving Eve has contributed to a rise in drunk driving deaths around the holiday. To make our roads safer around Thanksgiving, NHTSA is organizing a one-day, highway safety community media blitz starting Friday, November 17 at 11 a.m. ET to warn about the dangers of drinking and driving around the Thanksgiving holiday. They want to send a powerful, loud, and unified message on social and traditional media—Make it to the table: don't drink and drive during Thanksgiving. Americans need to hear that getting behind the wheel after drinking on Thanksgiving Eve can lead to an empty chair at Thanksgiving dinner. [Visit Traffic Safety Marketing for more information.](#)

Faster, friendlier, more accessible.

American Association of Motor Vehicle Administrators

Leadership Academy Application

April 30 - May 3, 2018

Thank you for your interest in the AAMVA Leadership Academy. Please complete this form and e-mail it and your resume to Janice Dluzynski at jduluzynski@aamva.org. **Applications are due by November 15, 2017.** Class size is limited to 18 and we can accept only one application per member agency.

Name: Nichole Tham

Title: Driver Services Manager

Phone and e-mail address: 907-269-3775

Organization: Alaska Division of Motor Vehicles

Years with Organization: 13

Current Responsibilities

Please provide a brief description of the responsibilities in your current position, number and type of employees you supervise, your current leadership role, etc.

As the Driver's Licensing representative on DMV's management team, I serve as the subject matter expert and key arbiter for all licensing matters in the state, responsible for overseeing a team of 21 employees across the South Central and South East regions of the state. The Anchorage Driver Services Unit at DMV Headquarters in Anchorage, Alaska has a diverse staff of Motor Vehicle Hearing Officers, the CDL Coordinator, CDL Auditors and dedicated Licensing Customer Service Representatives in addition to a grant funded Administrative Assistant for Alaska's CSTIMS pilot project and a CDLIS/SPEXS Training Specialist.

The Juneau Driver Services Office located in Alaska's Capital city of Juneau has an Office Manager and dedicated Licensing Customer Service Representatives. Collectively, the Driver Services team administers the Alaska criminal, civil, and administrative rules relating to the licensing of drivers and resolution of license problems. The CDL Coordinator and Auditors are responsible for ensuring 81 DMV Examiners and Third Party Testers comply with all state and federal rules governing Alaska's CDL program.

Though my team currently represents a smaller overall number of employees than the Vehicle and Public Service teams, I'm fortunate to have many of the Division's most knowledgeable and experienced team members within my unit. I have successfully utilized an open-minded and collaborative leadership approach, recognizing the strengths in each individual to bring out their best, in ever-changing and consistently challenging circumstances.

My key responsibilities include,

- Providing support to DMV's Director and Deputy Director in all licensing matters;
- Drafting and contributing to legislative proposals supporting DMV's mission;
- Analysis of state and federal legislation and its potential impact to the public and the Division in its entirety, including planning and implementation of process changes affecting operations at all levels

and in all areas of the state, with emphasis on the impact to Alaska's unique remote geographical and demographical considerations.

- Drafting and adoption of DMV regulations in the Alaska Administrative Code;
- Coordination with DMV IT to ensure program updates stemming from legislative/regulatory changes are consistent legal requirements and meet the needs of all DMV users;
- Oversight of DMV administrative hearings;
- Compliance with the intersection of state and federal program requirements affecting Alaska's licensing and identity credentials, e.g. the Federal Motor Carrier Safety Administration (FMCSA), the Social Security Administration (SSA), the United States Citizenship and Immigration Services (USCIS/SAVE);
- Representing Alaska DMV in inter-state committees such as the AAMVA S2S Pilot Program and SPEXS Working Group;
- Representing DMV in inter-agency groups such as the Alaska Traffic Records Coordinating Committee, the Alaska Impaired Driving Taskforce, and the NHTSA Traffic Records Assessment;
- Serving as a resource and leader for the Driver Services Team and DMV as a whole.

Objectives

What are your objectives in attending the Leadership Academy? What do you hope to learn and bring back to further improve/benefit your agency/jurisdiction? What are your personal leadership goals for the future?

My objective in attending the Leadership Academy is to improve upon my existing skills to contribute my very best to Alaska DMV's path to organizational and customer service excellence. We are a leanly staffed agency that faces many challenges. Improved leadership at varying levels within DMV will aid greatly in overcoming challenges and enhance planning for an organized, efficient, and successful future. I have the rare experience of being the first Driver Licensing Manager to have climbed through all ranks within DMV and who possesses a thorough knowledge of not just licensing, but also motor vehicles. This provides me with unique insight into my approach to improving not just the external, but the often overlooked and equally important internal DMV experience. The transition to executive management and leadership brings many opportunities, but also new challenges. I'm eager for the opportunity to learn from the experiences of my peers and leaders in the AAMVA community, and bring knowledge and fresh ideas back to the Alaska DMV.

Leadership Training

Are you currently participating in leadership training programs at your agency or other organizations? If so, please provide a brief description of the program(s).

Not at this time, which is another reason I seek to attend the Leadership Academy. Most of the positions I've held have been in a leadership role, but lacked opportunities or funding for leadership training.

Chief Administrator/Commissioner Approval

Applicants are responsible for obtaining the support of the Chief Administrator/Commissioner for your agency.

☒ **I have received the support of the Chief Administrator/Commissioner for my agency.**

Please provide your Administrator's contact information.

Name: Marla Thompson

Title: Division Director

Phone: 907-269-5574

E-mail: marla.thompson@alaska.gov

NICHOLE THAM

SKILLS

- Adaptable, flexible, and forward-thinking problem solver;
- Extensive knowledge of the CDL Program;
- Exemplary customer service and communication skills;
- 360-degree understanding of AK DMV operations.

OBJECTIVE

To participate in the collaborative exchange of ideas at the 2018 AAMVA Leadership Academy.

EXPERIENCE

Driver Services Manager | AK DMV | Nov. 2014-Present

Oversight of driver's licensing, identity credentials, and administrative hearings. Proposal and analysis of legislation and regulations. Coordination of new program implementation. Current team of 21 employees across two different regions of the state.

Accomplishments: Successful business implementation of the S2S Verification Service during the S2S Pilot, Coordination of the 2016 CDL PI Grant application resulting in award funds of \$1.4 Million to DMV's CDL Program.

Office Manager I and II | AK DMV | 2008-2014

Operational oversight of up to seven office locations, peaking at 41 employees across the entire State of Alaska. Recipient of the 2009 Governor's Denali Peak Performance Award for Team Customer Service Excellence.

EDUCATION

Bachelor of Arts | 2003 | Univ. of Alaska-Fairbanks

1999-Recipient of the Association of International Exchange, Japan (AIEJ) study-abroad scholarship.

International Driver Examiner (Certificate) | 2014 | AAMVA IDEC Board

nichole.tham@alaska.gov

907-269-3775

VOLUNTEER EXPERIENCE OR LEADERSHIP

Volunteer Treasurer, Fairbanks Ski Patrol, 2004-2009

Fundraising activities, tax reconciliation, and management of a \$25,000 budget.

Subject: RE: AK- SPEXS Smoke Test - Diver O

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

In case you need to reach out to be (hopefully there won't be any issues with the email today) , my desk number is 703-908-5779. If you can provide me a number where I can reach you too, that should be great.

Please re-try the CSOR for Driver O.

Thanks,
Asma

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

Asma,

Looking at the messages AK has received, the HB, HC, HG and HD have Process Status 3 and “COMMERCIAL CLASS REQUIRED” error block.

Do you know why?

Lori

Asma,

Looking at the messages AK has received, the HB, HC, HG and HD have Process Status 3 and "COMMERCIAL CLASS REQUIRED" error block.

Do you know why?

Lori

Asma,

I finally figured out what was required to send the Withdrawal action.

O3 – Sent HW, received CT.

I'll continue with Driver O. I have a meeting shortly so it may take me awhile to get through # O4 - # O8.

Lori,

For ACD Withdrawal Reason Code 'W28', DL Withdrawal Eligibility Date must be 'INDEF', I see that you are sending '20181030'.

Can you try this again with 'INDEF' as the DL Withdrawal Eligibility Date

Lori,

Sure, I wanted to call you too, but didn't have your number.

In case you need to reach out to be (hopefully there won't be any issues with the email today) , my desk number is 703-908-5779. If you can provide me a number where I can reach you too, that should be great.

Please re-try the CSOR for Driver O.

Thanks,

Asma

Subject: RE: AK- SPEXS Smoke Test - Diver O

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

Asma,

Looking at the messages AK has received, the HB, HC, HG and HD have Process Status 3 and “COMMERCIAL CLASS REQUIRED” error block.

Do you know why?

Subject: Windows UNI question

Hi Hab,

Though I know the mainframe UNI product fairly well, I'm still figuring out the Windows application. There is a function on the mainframe UNI tool that I can't seem to find on the windows version.

In this screen, I can see whether the record is inbound or outbound and can "resubmit it" accordingly. See the screenshot below for an example of how we resubmit a message inbound (to our UNI application). Can you tell me how I would do the same thing using the Windows UNI tool? Or, if you aren't the person to ask, who would I go to?

Sure Mina.

Monica,

Let me know when you are ready tomorrow and we can begin with the PDPS Smoke Testing.

Thanks,
Asma

Subject: RE: AK- SPEXS Smoke Test - Diver O

Thank you, Asma. Monica (cc'd) will be starting the PDPS test with you first thing tomorrow – she'll set up the records today. Monica, remember it takes a day for NDR to add the PDPS pointers (unlike SPEXS which are immediate), so please add any pointers you will be using tomorrow before the end of the day.

Weird...fyi, the email is acting up again. I got Asma's response here but not Lori's previous one.

I'd say that if you don't get a response from each other and expect one, the phone option might be a good one.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Weird...fyi, the email is acting up again. I got Asma's response here but not Lori's previous one.

I'd say that if you don't get a response from each other and expect one, the phone option might be a good one.

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Lori

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Subject: RE: AK- PDPS Smoke Test - Driver F

I have Sent U1 messages for Driver A and Driver G, but have not received the C1 messages for either driver yet, so the PDPS pointers have not yet been created.

If Driver G can continue without a pointer, I can continue with that driver.

Thanks.

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Mina,

Yes we do have a process in place that shows how to do that in Windows UNI.

I have included Sathish on this email. He will create FP ticket and also send you the procedure shortly.

Thanks

Hab

Subject: Windows UNI question

Hi Hab,

Though I know the mainframe UNI product fairly well, I'm still figuring out the Windows application. There is a function on the mainframe UNI tool that I can't seem to find on the windows version.

In this screen, I can see whether the record is inbound or outbound and can “resubmit it” accordingly. See the screenshot below for an example of how we resubmit a message inbound (to our UNI application). Can you tell me how I would do the same thing using the Windows UNI tool? Or, if you aren’t the person to ask, who would I go to?

Mina,

That's correct. Driver G messages are all state to state transaction.

Monica,

We can begin with Driver G when you are ready. Let me know....

Thanks,
Asma

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

I retried the SB for P3 and got the H5 in addition to the other expected messages.

Regarding F5, this transaction is adding the SPEX pointer for Driver F, which already exists. Do you still need me to try to create another Spex pointer for Driver F?

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Monica,

Please proceed with # F3/4.

Once done, AK adds the driver (# F5). Let me know once this is done.

I have a meeting for the next one hour, but I will have my laptop with me.

Thanks,
Asma

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side.

Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Subject: RE: AK- SPEXS Smoke Test - Diver C

Lori,

I have completed Driver C, and the responses looked fine.

This completes the SPEXS Smoke Test for AK.

If you want to run any other SPEXS Test Cases, please let us know, we should be happy to help you.

Thank you,
Asma

Good morning Asma,

I am ready to continue testing Driver O.

We had some email communication problems Thursday. The emails you sent in response to my emails starting at 10:00 am Alaska time did not arrive in my email box until evening. I had our IT guys look into it Friday and they said the messages were delayed in route, so it does not appear to have been a problem on your end or mine. Hopefully, things will be back to normal today.

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AAMVA Batch Processing - Alaska DMV

Hi Dillon,

Dave Monroe works with us Monday, Thursday, and Friday. If we need to test connections, we'll need to plan to do this, hopefully Thursday morning. Also, tomorrow is an AK state holiday, and I will be off. However, if this meeting is about data and not permissions/connections, then we shouldn't need to bother Dave and should meet today ASAP.

I see there was a meeting last week – can someone please update me where we are with the connection issue? We just discussed this in a meeting and we are getting extremely nervous about how long the NMVTIS testing is taking – I had expected by now we would be halfway through regression testing and it is distressing that we're still talking about this initial load. We must make sure that round 1 of the test is complete and regression testing is begun before the end of this week. We must be complete in 2 weeks at the most. We are going live in 6 weeks, and will need dedicated AAMVA testers giving us quick turnaround in order to get this complete in the next couple weeks. If this is an issue with staffing please let me know.

I propose to save time that we do our regression test in AK rather than AI to avoid the additional smoke test. Susan, is this possible? If not, we may have to skip the AK smoke test as you originally thought.

Subject: Fw: AAMVA Batch Processing - Alaska DMV

Hello Susan,

We're currently 6 weeks from scheduled go-live and we have this batch processing issue, regression testing, batch initial load testing, and potentially a smoke test after switching to AK left to complete.

As far as I'm aware, Amir is still processing the feedback we gave him and has yet to give us an updated initial load test plan. Sathish and Dave both have limited availability towards resolving the issues with batch processing.

Would it be possible for us to proceed with the regression test while the issues with batch processing are worked out? There's no difference in how an NH or NC is processed once it successfully makes it from the UNI tool into our application. We have tests that we'll be executing during the regression test to ensure NH and NC are working independently of batch processing. We can either ensure that the relevant records continue being available on our end throughout the regression test, or recreate the records if/when batch processing is confirmed to be working (to the extent that messages reach our application).

In the absence of any testing to perform or prepare for, there is nothing I can do to progress these tasks towards completion.

Thank you,

Dillon Salsman

Mina,

That's correct. Driver G messages are all state to state transaction.

Monica,

We can begin with Driver G when you are ready. Let me know....

Thanks,

Asma

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Monica,

F6 and # F7 looks good. This completes Driver F.

Did you get a response to # A2? If not, we can start Driver G.

Please let me know.

Thanks,
Asma

I retried the SB for P3 and got the H5 in addition to the other expected messages.

Regarding F5, this transaction is adding the SPEX pointer for Driver F, which already exists. Do you still need me to try to create another Spex pointer for Driver F?

Thanks.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Mina,

As we are towards end of the Smoke Test, I just wanted to go ahead and set up a call for the changes you need before your December 4th Prod implementation.

There is some set up needed from the UNI side, and I wanted to set up a call with the AK team and the UNI team at our side to make sure we are ready with the necessary changes before the planned implementation.

Please let me know a time slot for tomorrow and I will send you the meeting invite.

Hi Dillon,

Dave Monroe works with us Monday, Thursday, and Friday. If we need to test connections, we'll need to plan to do this, hopefully Thursday morning. Also, tomorrow is an AK state holiday, and I will be off. However, if this meeting is about data and not permissions/connections, then we shouldn't need to bother Dave and should meet today ASAP.

I see there was a meeting last week – can someone please update me where we are with the connection issue? We just discussed this in a meeting and we are getting extremely nervous about how long the NMVTIS testing is taking – I had expected by now we would be halfway through regression testing and it is distressing that we're still talking about this initial load. We must make sure that round 1 of the test is complete and regression testing is begun before the end of this week. We must be complete in 2 weeks at the most. We are going live in 6 weeks, and will need dedicated AAMVA testers giving us quick turnaround in order to get this complete in the next couple weeks. If this is an issue with staffing please let me know.

I propose to save time that we do our regression test in AK rather than AI to avoid the additional smoke test. Susan, is this possible? If not, we may have to skip the AK smoke test as you originally thought.

Subject: Fw: AAMVA Batch Processing - Alaska DMV

Hello Susan,

We're currently 6 weeks from scheduled go-live and we have this batch processing issue, regression testing, batch initial load testing, and potentially a smoke test after switching to AK left to complete.

As far as I'm aware, Amir is still processing the feedback we gave him and has yet to give us an updated initial load test plan. Sathish and Dave both have limited availability towards resolving the issues with batch processing.

Would it be possible for us to proceed with the regression test while the issues with batch processing are worked out? There's no difference in how an NH or NC is processed once it successfully makes it from the UNI tool into our application. We have tests that we'll be executing during the regression test to ensure NH and NC are working independently of batch processing. We can either ensure that the relevant records continue being available on our end throughout the regression test, or recreate the records if/when batch processing is confirmed to be working (to the extent that messages reach our application).

In the absence of any testing to perform or prepare for, there is nothing I can do to progress these tasks towards completion.

Thank you,

Dillon Salsman

Subject: RE: AAMVA Batch Processing - Alaska DMV

Hi Dillon,

Dave Monroe works with us Monday, Thursday, and Friday. If we need to test connections, we'll need to plan to do this, hopefully Thursday morning. Also, tomorrow is an AK state holiday, and I will be off. However, if this meeting is about data and not permissions/connections, then we shouldn't need to bother Dave and should meet today ASAP.

I see there was a meeting last week – can someone please update me where we are with the connection issue? We just discussed this in a meeting and we are getting extremely nervous about how long the NMVTIS testing is taking – I had

expected by now we would be halfway through regression testing and it is distressing that we're still talking about this initial load. We must make sure that round 1 of the test is complete and regression testing is begun before the end of this week. We must be complete in 2 weeks at the most. We are going live in 6 weeks, and will need dedicated AAMVA testers giving us quick turnaround in order to get this complete in the next couple weeks. If this is an issue with staffing please let me know.

I propose to save time that we do our regression test in AK rather than AI to avoid the additional smoke test. Susan, is this possible? If not, we may have to skip the AK smoke test as you originally thought.

Subject: Fw: AAMVA Batch Processing - Alaska DMV

Hello Susan,

We're currently 6 weeks from scheduled go-live and we have this batch processing issue, regression testing, batch initial load testing, and potentially a smoke test after switching to AK left to complete.

As far as I'm aware, Amir is still processing the feedback we gave him and has yet to give us an updated initial load test plan. Sathish and Dave both have limited availability towards resolving the issues with batch processing.

Would it be possible for us to proceed with the regression test while the issues with batch processing are worked out? There's no difference in how an NH or NC is processed once it successfully makes it from the UNI tool into our application. We have tests that we'll be executing during the regression test to ensure NH and NC are working independently of batch processing. We can either ensure that the relevant records continue being available on our end throughout the regression test, or recreate the records if/when batch processing is confirmed to be working (to the extent that messages reach our application).

In the absence of any testing to perform or prepare for, there is nothing I can do to progress these tasks towards completion.

Thank you,

Dillon Salsman

Subject: Windows UNI question

Hi Hab,

Though I know the mainframe UNI product fairly well, I'm still figuring out the Windows application. There is a function on the mainframe UNI tool that I can't seem to find on the windows version.

In this screen, I can see whether the record is inbound or outbound and can "resubmit it" accordingly. See the screenshot below for an example of how we resubmit a message inbound (to our UNI application). Can you tell me how I would do the same thing using the Windows UNI tool? Or, if you aren't the person to ask, who would I go to?

Subject: RE: Windows UNI question

Thank you, Sathish, that did work.

Another thing that I used to be able to do on the mainframe was edit the data on the test environment. Although there are "edit" fields, it won't actually let me change anything. Is there any way to enable that?

Subject: RE: Windows UNI question

Mina,

Yes we do have a process in place that shows how to do that in Windows UNI.

I have included Sathish on this email. He will create FP ticket and also send you the procedure shortly.

Thanks

Hab

Subject: Windows UNI question

Hi Hab,

Though I know the mainframe UNI product fairly well, I'm still figuring out the Windows application. There is a function on the mainframe UNI tool that I can't seem to find on the windows version.

In this screen, I can see whether the record is inbound or outbound and can "resubmit it" accordingly. See the screenshot below for an example of how we resubmit a message inbound (to our UNI application). Can you tell me how I would do the same thing using the Windows UNI tool? Or, if you aren't the person to ask, who would I go to?

Subject: AK - Prod Implementation

Mina,

As we are towards end of the Smoke Test, I just wanted to go ahead and set up a call for the changes you need before your December 4th Prod implementation.

There is some set up needed from the UNI side, and I wanted to set up a call with the AK team and the UNI team at our side to make sure we are ready with the necessary changes before the planned implementation.

Please let me know a time slot for tomorrow and I will send you the meeting invite.

Thanks,

Hi Asma,

I have set up the 11 drivers. The Driver that should have all of the requested information is DLN 7712304. AK's ALVIN Application doesn't use DDLJU3, DDLJU4 DDLNU4, or DDLNU3 so please let me know if things don't look right on your end after you send the SL and receive the RL and HL's.

Thank you!

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Cc: Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Subject: RE: AK- PDPS Smoke Test - Driver F

I retried the SB for P3 and got the H5 in addition to the other expected messages.

Regarding F5, this transaction is adding the SPEX pointer for Driver F, which already exists. Do you still need me to try to create another Spex pointer for Driver F?

Thanks.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Cc: Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver G

Hi Asma,

I have set up the 11 drivers. The Driver that should have all of the requested information is DLN 7712304. AK's ALVIN Application doesn't use DDLJU3, DDLJU4 DDLNU4, or DDLNU3 so please let me know if things don't look right on your end after you send the SL and receive the RL and HL's.

Thank you!

Cc: Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Monica,

Driver G is completed.

We can begin with Driver K. Let me know when you are ready.

Thanks,
Asma

Mina,

That's correct. Driver G messages are all state to state transaction.

Monica,

We can begin with Driver G when you are ready. Let me know....

Thanks,
Asma

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Subject: RE: AK- PDPS Smoke Test - Driver F

I retried the SB for P3 and got the H5 in addition to the other expected messages.

Regarding F5, this transaction is adding the SPEX pointer for Driver F, which already exists. Do you still need me to try to create another Spex pointer for Driver F?

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Mina,

That's correct. Driver G messages are all state to state transaction.

Monica,

We can begin with Driver G when you are ready. Let me know....

Thanks,
Asma

Subject: RE: AK- PDPS Smoke Test - Driver F

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Subject: RE: AK- PDPS Smoke Test - Driver F

I retried the SB for P3 and got the H5 in addition to the other expected messages.

Regarding F5, this transaction is adding the SPEX pointer for Driver F, which already exists. Do you still need me to try to create another Spex pointer for Driver F?

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Monica,

F6 and # F7 looks good. This completes Driver F.

Did you get a response to # A2? If not, we can start Driver G.

Please let me know.

Thanks,
Asma

Cc: Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AK- PDPS Smoke Test - Driver F

I retried the SB for P3 and got the H5 in addition to the other expected messages.

Regarding F5, this transaction is adding the SPEX pointer for Driver F, which already exists. Do you still need me to try to create another Spex pointer for Driver F?

Thanks.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Asma,

I had asked Monica to send the U1 for Driver G today, which she did, but we haven't gotten the C1 back yet. However, though the test does specify adding the pointer, it looks like all the messages are State-to-State transactions and don't actually require a pointer. Is that correct? If so, then we should be able to start Driver G whenever Monica is ready.

Subject: RE: AK- PDPS Smoke Test - Driver F

Monica,

The test is in error, because H7 messages are not sent in PDPS...but yes, the H5 should have come on the first one.

However, we are testing AK's ability to send and receive. It sounds like that's an issue on AAMVA's side. Obviously we can receive the H5 because we got it in the other record. Can we just go on?

Subject: RE: AK- PDPS Smoke Test - Driver F

Hi Asma,

I retried the SB for P3, and I received HB, H3, and H4.

SB for P6, I received HB, H3, H4, H5.

The test plan mentions that:

- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P3.
- AK receives the History response [HB], [H3], [H4], [H5] and [H7] messages from P6.

I did not get an H5 from P3, and I don't think H7 exists that I have seen, so please let me know if everything looks ok on your end.

Thank you so much,

Hi Asma,

Looks like the DLN on our side is being sent correctly as PDPSDRIVER20366, for pseudo state P3. I have tried it a couple of times, and I've verified that the parameters are the same for each message.

P6 with DLN PDPSDRIVER10366 was successful, however.

Thanks.

Subject: National Driver Register Cleanfile - December 17, 2017

The National Driver Register will conduct a Cleanfile on December 17th, 2017.

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by December 6th, 2017, and plan to send your file to NDR no later than December 13th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Mina,

As the Go Live date as Dec 4th we need the below information for tomorrow meeting.

- 1) Is the new WIN production UNI server ready?
- 2) Do we need to install UNI and configure it?
- 3) If this is new install, are you using the same Natted IP (Currently used for Mainframe) or new Nattep IP?
- 4) If new IP then we need to include network teams(both AAMVA and AK) to open the firewall ports.
- 5) Once new production server is ready we will test pointing to NCS test.

Thank you,

Mina,

As we are towards end of the Smoke Test, I just wanted to go ahead and set up a call for the changes you need before your December 4th Prod implementation.

There is some set up needed from the UNI side, and I wanted to set up a call with the AK team and the UNI team at our side to make sure we are ready with the necessary changes before the planned implementation.

Please let me know a time slot for tomorrow and I will send you the meeting invite.

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 11/15/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Implementation date is set for December 4, 2017.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	
David Nolen	Alaska	√	
Dillon Pressley	Alaska – Resource Data	√	
Joshua Shoemaker	Alaska – Resource Data	√	
Gary Tancik	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	
Sam Amaya	AAMVA, Project Director	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- File Transfer Testing
- Initial Load Testing
- Implementation
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Identify a state that will test unsolicited messages on 12/2/2017	Susan Creighton	11/24/2017	Complete

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

Date: (MM/DD/CCYY)	11/22/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting

Subject: RE: AK - Prod Implementation

Hi Sathish,

Please see below for our answers. Also regarding the Site table, I know how to extract it from the mainframe. We may need to get a script to properly import it into Windows UNI, however. Currently the site table is set up for the CERT environment.

Subject: RE: AK - Prod Implementation

Mina,

As the Go Live date as Dec 4th we need the below information for tomorrow meeting.

- 1) Is the new WIN production UNI server ready? **[Mina comment]** Yes
- 2) Do we need to install UNI and configure it? **[Mina comment]** It is currently set up for test, we will need to reconfigure for production after creating a new test clone.
- 3) If this is new install, are you using the same Natted IP (Currently used for Mainframe) or new Nattep IP? **[Mina comment]** n/a
- 4) If new IP then we need to include network teams(both AAMVA and AK) to open the firewall ports. **[Mina comment]** n/a
- 5) Once new production server is ready we will test pointing to NCS test. **[Mina comment]** n/a since it's already currently pointing to test.

Thank you,

Subject: AK - Prod Implementation

Mina,

As we are towards end of the Smoke Test, I just wanted to go ahead and set up a call for the changes you need before your December 4th Prod implementation.

There is some set up needed from the UNI side, and I wanted to set up a call with the AK team and the UNI team at our side to make sure we are ready with the necessary changes before the planned implementation.

Please let me know a time slot for tomorrow and I will send you the meeting invite.

Thanks,

Contact Descriptions

Note that one person may fill multiple roles.

Business Contact: The person(s) responsible for addressing policy, process, and regulatory issues with AAMVA and other application users.

Helpdesk Support: The person(s) responsible for addressing and resolving help desk issues with AAMVA and other application users. Help desk issues include transmission problems, questions about central file or state data, broken pointers, suspended transactions, and duplicates.

Online Technical Contact*: The person(s) responsible for addressing online technical issues with AAMVA and other application users. Technical issues include programming, problems with message formats, and testing.

Batch Technical Contact*: The person(s) responsible for addressing batch technical issues with AAMVA and other application users. Technical issues include programming, problems with file formats, and testing.

UNI Technical Support: The person(s) responsible for addressing and resolving connectivity issues with AAMVA and other application users.

Report Recipient(s): Person(s) wishing to receive the specified report via email. This should include, at a minimum, those individuals responsible for resolving any issues noted in the report and those with operational oversight.

Batch File Recipient(s): The person(s) responsible for retrieving and processing the specified file from AAMVA's FTP server. This should include, at a minimum, those individuals responsible for correcting and resubmitting batch errors and those with operational oversight.

Email Distribution List: Person(s) wishing to receive email notifications containing information that may affect the system users. This includes release notifications, system outages, and announcements of new participants.

*Names provided will be included on a Jurisdiction to Jurisdiction Contact List published on AAMVA's website (for jurisdictional members only).

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 11/15/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Implementation date is set for December 4, 2017.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	√
David Nolen	Alaska	√	√
Dillon Pressley	Alaska – Resource Data	√	√
Joshua Shoemaker	Alaska – Resource Data	√	
Gary Tancik	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	√
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	√
Susan Creighton	AAMVA, Lead Systems Analyst	√	√
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	
Sam Amaya	AAMVA, Project Director	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- File Transfer Testing
- Initial Load Testing
- Implementation
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

Setup for AK to access the AAMVA file transfer server is complete and has been tested at AK. AK will need to use the file transfer capability to finish the initial load testing.

Susan performed a dry run of the response time testing in the CERT environment using the existing data for AI and AK that was still in our logs but the number came up rather high which could have been caused by outside sources since the AK test environment was being heavily used by various testers. Because of this Dillon will send Susan about 5 VINs which can be used for inquiry, etc. and Susan will run the response time dry run again in CERT using those VINs using the AK gap code. The actual response time test will be performed in the production environment the week after implementation. If any issues are identified, AK will need to address. AK has provided the second set of initial load test files and Amir just finished the validation. He will be sending results out today.

Since AK is not actually performing an initial load and the initial load programs are being developed for use in the data sync process as well as for disaster recovery, if for some reason we cannot get the initial load tested in time for this implementation, we should be able to allow that to be finished afterwards with AAMVA management approval.

AK implementation plans are to bring the system down around 5 pm AKT (9 PM ET) Friday, December 1st and bring back up on Saturday, December 2nd morning. AK anticipates they will be ready to work with AAMVA to ensure everything is working in the early afternoon AKT time (late afternoon ET) and would like to have another state available to test the unsolicited messages around 1:50 pm AKT (4:50 pm ET). Susan has lined up VA to work with us. AK will be implementing all applications including drivers so there will also be coordination with the other teams.

Susan created an implementation plan with high level tasks that we went over during the meeting. The plan will be sent to AK with these minutes along with the jurisdiction contact form.

We will skip the weekly meeting next week given it falls the day before a holiday and many are out of the office.

NEXT STEPS:

Structured testing of the initial load process

Response time dry run test

Implementation tasks

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Identify a state that will test unsolicited messages on 12/2/2017	Susan Creighton	11/24/2017	Complete
Send 5 VINs that can be used for response time dry run in CERT	AK	11/16/2017	Open
Perform response time dry run in CERT using the VINs that AK sends	Susan Creighton	11/24/2017	Open

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

<i>Date: (MM/DD/CCYY)</i>	11/29/2017	<i>Time:</i>	4:30 pm – 5:30 pm ET	<i>Location:</i>	Jaguar Conference Room
<i>Agenda:</i>	Will be Sent out Prior to Meeting

Hi AK,

Attached are the minutes for today's meeting. Please let me know if I missed or misstated anything.

Also attached is the implementation plan we went over today as well as the Jurisdiction contacts form for you to fill out. I checked and you are getting your N* messages starting at 23:45 ET so I updated the plan to reflect that you will keep that at the same.

Please don't hesitate to let me know if you have questions.

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Subject: AAMVA Workshop 2018 - Save the Date!

Registration Opens in December

Mark your calendar for AAMVA's Workshop & Law Institute this March in Denver. This unique event provides AAMVA members with an intimate and collaborate environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. See below for a listing of these session topics.

Cc: Garber, Casey
Subject: RE: AK - NMVTIS Re-write AMIE Online Updates/Inquiries Meeting Minutes

Hi Mina,

SEW files are from the batch update process. When a batch file is processed the errors and warnings as well as the number of records processed, etc. are in the SEW files. You would get these back when we process your data sync files.

The OUTAMI files are the N* messages that come in a batch file. You will get these when we have an initial load, mass delete or if the duplicate VIN resolution process is executed. We always produce the N* messages in batch files when we run a mass process.

The person that should get these would be responsible for working any errors that are in the files (normally helpdesk).

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK - NMVTIS Re-write AMIE Online Updates/Inquiries Meeting Minutes

Hi Susan,

May be a dumb question, but what are SEW and OUTAMI files, and typically what type of user should be the recipient? Technical or Business?

Regards,

Mina Peters
Analyst Programmer V

Hi AK,

Attached are the minutes for today's meeting. Please let me know if I missed or misstated anything.

Also attached is the implementation plan we went over today as well as the Jurisdiction contacts form for you to fill out. I checked and you are getting your N* messages starting at 23:45 ET so I updated the plan to reflect that you will keep that at the same.

Please don't hesitate to let me know if you have questions.

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](#) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com](#).

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com](#).

Federal REAL ID Available Now At DMV (New York)

The New York Dept. of Motor Vehicles (DMV) began issuing the REAL ID documents Oct. 30, and though not yet required, you can convert to a REAL ID at any time. [Read the article at chronicle-express.com](#).

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com](#).

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com](#).

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at nytimes.com.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at azcentral.com.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at latimes.com.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at canadianunderwriter.ca.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

State MVD Director Resigns For Personal Reasons (New Mexico)

The director of the New Mexico Motor Vehicle Division stepped down earlier this month for undisclosed personal reasons. [Read the article at lcsun-news.com.](#)

Tesla Unveils Electric Truck With 500-Mile Range — and Teases a New Sports Car

Elon Musk unveiled the new Tesla Semi on Thursday night — and surprised everybody with a working prototype of a new Roadster sports car whose purpose, he said, is to "give a hard-core smackdown to gasoline cars." ... He was sketchy about the new electric Tesla Semi. Eyebrows popped high when he claimed a range of 500 miles, far more than anyone anticipated. [Read the article at latimes.com.](#)

Self-Driving Trucks May Be Closer Than They Appear

Trucks will someday drive themselves out of warehouses and cruise down freeways without the aid of humans or even a driver's cab — about that there seems little disagreement. The question is how soon that day gets here. [Read the article at post-gazette.com.](#)

Car Recalls Are At an All-Time High, But 30% Remain Unrepaired

Vehicle recalls are regularly in the news, warning of inadvertent airbag deployments, faulty door latches, even risks of fire, not to mention the ongoing Takata airbag recall that dwarfs all others. But the steady stream of recalls masks the fact that about 30% of recalled vehicles remain unrepaired on America's roads, according to federal statistics. [Read the article at freep.com.](#)

U.S. Safety Board to Probe Self-Driving Shuttle Crash In Las Vegas

Federal transportation safety officials headed to Las Vegas on Friday to

investigate a collision this week between a self-driving shuttle bus on its first day of service and a truck, which was blamed on human error. The U.S. National Transportation Safety Board, which has the power to issue safety recommendations and determines probable causes of crashes, wants to learn more about "how self-driving vehicles interact with their environment and the other human-driven vehicles around them," said NTSB spokesman Christopher O'Neil. [Read the article at reuters.com.](#)

Tracking Truckers: Electronic Devices Replace Paper Log Books

Trucking companies across the United States will soon enter a new era when it comes to logging drivers' time on the road. Traditionally, drivers use paper logs to prove they didn't drive too long in one day. But starting next month, tractor-trailers will be required to have electronic logging devices. [Read the article at wneq.com.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](#) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com.](#)

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com.](#)

REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com.](#)

REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at nytimes.com.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at azcentral.com.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at latimes.com.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at canadianunderwriter.ca.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](#) for more details about the awards program, and to download the submission and nomination packet. REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com.](#)

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com.](#)

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com](#).

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com](#).

Federal REAL ID Available Now At DMV (New York)

The New York Dept. of Motor Vehicles (DMV) began issuing the REAL ID documents Oct. 30, and though not yet required, you can convert to a REAL ID at any time. [Read the article at chronicle-express.com](#).

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com](#).

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Tests For Pot-Impaired Driving Flawed, Substance Abuse Expert Says (Alberta)

As Alberta adjusts its traffic act in response to the looming legalization of marijuana, an expert says basing stoned-driving laws on THC levels is flawed. [Read the article at cbc.ca.](#)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at nytimes.com.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at azcentral.com.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at latimes.com.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at canadianunderwriter.ca.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

State MVD Director Resigns For Personal Reasons (New Mexico)

The director of the New Mexico Motor Vehicle Division stepped down earlier this month for undisclosed personal reasons. [Read the article at lcsun-news.com.](#)

Tesla Unveils Electric Truck With 500-Mile Range — and Teases a New Sports Car

Elon Musk unveiled the new Tesla Semi on Thursday night — and surprised everybody with a working prototype of a new Roadster sports car whose purpose, he said, is to "give a hard-core smackdown to gasoline cars." ... He was sketchy about the new electric Tesla Semi. Eyebrows popped high when he claimed a range of 500 miles, far more than anyone anticipated. [Read the article at latimes.com.](#)

Self-Driving Trucks May Be Closer Than They Appear

Trucks will someday drive themselves out of warehouses and cruise down freeways without the aid of humans or even a driver's cab — about that there seems little disagreement. The question is how soon that day gets here. [Read the article at post-gazette.com.](#)

Car Recalls Are At an All-Time High, But 30% Remain Unrepaired

Vehicle recalls are regularly in the news, warning of inadvertent airbag deployments, faulty door latches, even risks of fire, not to mention the ongoing Takata airbag recall that dwarfs all others. But the steady stream of recalls masks the fact that about 30% of recalled vehicles remain unrepaired on America's roads, according to federal statistics. [Read the article at freep.com.](#)

U.S. Safety Board to Probe Self-Driving Shuttle Crash In Las Vegas

Federal transportation safety officials headed to Las Vegas on Friday to

investigate a collision this week between a self-driving shuttle bus on its first day of service and a truck, which was blamed on human error. The U.S. National Transportation Safety Board, which has the power to issue safety recommendations and determines probable causes of crashes, wants to learn more about "how self-driving vehicles interact with their environment and the other human-driven vehicles around them," said NTSB spokesman Christopher O'Neil. [Read the article at reuters.com.](#)

Tracking Truckers: Electronic Devices Replace Paper Log Books

Trucking companies across the United States will soon enter a new era when it comes to logging drivers' time on the road. Traditionally, drivers use paper logs to prove they didn't drive too long in one day. But starting next month, tractor-trailers will be required to have electronic logging devices. Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

<http://images.magnetmail.net/images/clients/AAMVA/RegionalNews/2017/07172017-FrancisHeidi.jpg> Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety

Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

Tests For Pot-Impaired Driving Flawed, Substance Abuse Expert Says (Alberta)

As Alberta adjusts its traffic act in response to the looming legalization of marijuana, an expert says basing stoned-driving laws on THC levels is flawed. [Read the article at cbc.ca](http://www.cbc.ca).

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at nytimes.com](http://www.nytimes.com).

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at azcentral.com](http://www.azcentral.com).

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at latimes.com.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at canadianunderwriter.ca.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

Tesla Unveils Electric Truck With 500-Mile Range — and Teases a New Sports Car

Elon Musk unveiled the new Tesla Semi on Thursday night — and surprised everybody with a working prototype of a new Roadster sports car whose purpose, he said, is to "give a hard-core smackdown to gasoline cars." ... He was sketchy about the new electric Tesla Semi. Eyebrows popped high when he claimed a range of 500 miles, far more than anyone anticipated. [Read the article at latimes.com.](#)

Self-Driving Trucks May Be Closer Than They Appear

Trucks will someday drive themselves out of warehouses and cruise down freeways without the aid of humans or even a driver's cab — about that there seems little disagreement. The question is how soon that day gets here. [Read the article at post-gazette.com.](#)

Car Recalls Are At an All-Time High, But 30% Remain Unrepaired

Vehicle recalls are regularly in the news, warning of inadvertent airbag deployments, faulty door latches, even risks of fire, not to mention the ongoing Takata airbag recall that dwarfs all others. But the steady stream of recalls masks the fact that about 30% of recalled vehicles remain unrepaired on

America's roads, according to federal statistics. [Read the article at freep.com.](#)

U.S. Safety Board to Probe Self-Driving Shuttle Crash In Las Vegas

Federal transportation safety officials headed to Las Vegas on Friday to investigate a collision this week between a self-driving shuttle bus on its first day of service and a truck, which was blamed on human error. The U.S. National Transportation Safety Board, which has the power to issue safety recommendations and determines probable causes of crashes, wants to learn more about "how self-driving vehicles interact with their environment and the other human-driven vehicles around them," said NTSB spokesman Christopher O'Neil. [Read the article at reuters.com.](#)

Tracking Truckers: Electronic Devices Replace Paper Log Books

Trucking companies across the United States will soon enter a new era when it comes to logging drivers' time on the road. Traditionally, drivers use paper logs to prove they didn't drive too long in one day. But starting next month, tractor-trailers will be required to have electronic logging devices. OUR EVENTS

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the AAMVA Awards Program online for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com.](#)

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com.](#)

Federal REAL ID Available Now At DMV (New York)

The New York Dept. of Motor Vehicles (DMV) began issuing the REAL ID documents Oct. 30, and though not yet required, you can convert to a REAL ID at any time. [Read the article at chronicle-express.com.](#)

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com.](#)

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com.](#)

REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Driverless cars might someday be the answer to less traffic and safer roadways, according to industry experts along with those that are studying the technology. [Read the article at fox17.com.](#)

Temporary License Plates Being Sold For Cash (Texas)

Channel 2 Investigates has discovered the Texas DMV's online Temporary Tag system does not verify the personal information of the those who register vehicles, allowing anyone to get a temporary license plate. [Read the article at click2houston.com.](#)

Governor Dayton Apologizes for Ongoing Licensing Problems (Minnesota)

Four months after the launch of a new computer system for vehicle licensing and registration, Gov. Mark Dayton said it remains far from where it should be. Dayton offered an apology, acknowledging glitches and failings in the system. But he also stressed that it often works correctly. [Read the article at mprnews.org.](#)

Driverless Vehicle Lanes On I-94 Being Studied For Foxconn (Wisconsin)

Spurred by Foxconn Technology Group and its plans for a mega-factory in Racine County, state highway planners are studying the possibility of including special lanes for driverless vehicles on I-94. Should that come to pass — and at this point

it is only something being contemplated — it would put Wisconsin in the vanguard of what many believe will be a key part of transportation in the future. [Read the article at isonline.com.](#)

'America's Dairyland' Will Stay On Wisconsin License Plates, Governor Says

The slogan "America's Dairyland" will stay on Wisconsin license plates until the cows come home, Gov. Scott Walker declared Tuesday. [Read the article at host.madison.com.](#)

Autonomous Vehicle Displayed Outside Capitol (Wisconsin)

An autonomous vehicle was on display Wednesday afternoon outside the state Capitol building. Originally, the Wisconsin Automated Vehicle Proving Grounds team was going to give demonstrations on the shuttle in downtown Madison. However, they canceled the demonstrations after a different Navya shuttle was involved in a crash with a semitrailer in Las Vegas about a week before. [Read the article at channel3000.com.](#)

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](#) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com.](#)

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com.](#)

Federal REAL ID Available Now At DMV (New York)

The New York Dept. of Motor Vehicles (DMV) began issuing the REAL ID documents Oct. 30, and though not yet required, you can convert to a REAL ID at any time. [Read the article at chronicle-express.com.](#)

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com.](#)

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com.](#)

REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Driverless cars might someday be the answer to less traffic and safer roadways, according to industry experts along with those that are studying the technology. [Read the article at fox17.com.](#)

Temporary License Plates Being Sold For Cash (Texas)

Channel 2 Investigates has discovered the Texas DMV's online Temporary Tag system does not verify the personal information of the those who register vehicles, allowing anyone to get a temporary license plate. [Read the article at click2houston.com.](#)

REGION 3 NEWS

Governor Dayton Apologizes for Ongoing Licensing Problems (Minnesota)

Four months after the launch of a new computer system for vehicle licensing and registration, Gov. Mark Dayton said it remains far from where it should be. Dayton offered an apology, acknowledging glitches and failings in the system. But he also stressed that it often works correctly. [Read the article at mprnews.org.](#)

Driverless Vehicle Lanes On I-94 Being Studied For Foxconn (Wisconsin)

Spurred by Foxconn Technology Group and its plans for a mega-factory in Racine County, state highway planners are studying the possibility of including special lanes for driverless vehicles on I-94. Should that come to pass — and at this point

it is only something being contemplated — it would put Wisconsin in the vanguard of what many believe will be a key part of transportation in the future. [Read the article at isonline.com.](#)

'America's Dairyland' Will Stay On Wisconsin License Plates, Governor Says

The slogan "America's Dairyland" will stay on Wisconsin license plates until the cows come home, Gov. Scott Walker declared Tuesday. [Read the article at host.madison.com.](#)

Autonomous Vehicle Displayed Outside Capitol (Wisconsin)

An autonomous vehicle was on display Wednesday afternoon outside the state Capitol building. Originally, the Wisconsin Automated Vehicle Proving Grounds team was going to give demonstrations on the shuttle in downtown Madison. However, they canceled the demonstrations after a different Navya shuttle was involved in a crash with a semitrailer in Las Vegas about a week before. [Read the article at channel3000.com.](#)

Alberta Bolstering Drug-Impaired Driving Laws

The Government of Alberta is proposing new legislation to deter impaired driving and improve safety on the province's roads. [Read the article at morinvillenews.com.](#)

Tests For Pot-Impaired Driving Flawed, Substance Abuse Expert Says (Alberta)

As Alberta adjusts its traffic act in response to the looming legalization of marijuana, an expert says basing stoned-driving laws on THC levels is flawed. [Read the article at cbc.ca.](#)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at nytimes.com.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at azcentral.com.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at latimes.com.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at canadianunderwriter.ca.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

State MVD Director Resigns For Personal Reasons (New Mexico)

The director of the New Mexico Motor Vehicle Division stepped down earlier this month for undisclosed personal reasons. [Read the article at lcsun-news.com.](#)

Tesla Unveils Electric Truck With 500-Mile Range — and Teases a New Sports Car

Elon Musk unveiled the new Tesla Semi on Thursday night — and surprised everybody with a working prototype of a new Roadster sports car whose purpose, he said, is to "give a hard-core smackdown to gasoline cars." ... He was sketchy about the new electric Tesla Semi. Eyebrows popped high when he claimed a range of 500 miles, far more than anyone anticipated. [Read the article at latimes.com.](#)

Self-Driving Trucks May Be Closer Than They Appear

Trucks will someday drive themselves out of warehouses and cruise down freeways without the aid of humans or even a driver's cab — about that there seems little disagreement. The question is how soon that day gets here. [Read the article at post-gazette.com.](#)

Car Recalls Are At an All-Time High, But 30% Remain Unrepaired

Vehicle recalls are regularly in the news, warning of inadvertent airbag deployments, faulty door latches, even risks of fire, not to mention the ongoing Takata airbag recall that dwarfs all others. But the steady stream of recalls masks the fact that about 30% of recalled vehicles remain unrepaired on America's roads, according to federal statistics. [Read the article at freep.com.](#)

U.S. Safety Board to Probe Self-Driving Shuttle Crash In Las Vegas

Federal transportation safety officials headed to Las Vegas on Friday to

investigate a collision this week between a self-driving shuttle bus on its first day of service and a truck, which was blamed on human error. The U.S. National Transportation Safety Board, which has the power to issue safety recommendations and determines probable causes of crashes, wants to learn more about "how self-driving vehicles interact with their environment and the other human-driven vehicles around them," said NTSB spokesman Christopher O'Neil. [Read the article at reuters.com.](#)

Tracking Truckers: Electronic Devices Replace Paper Log Books

Trucking companies across the United States will soon enter a new era when it comes to logging drivers' time on the road. Traditionally, drivers use paper logs to prove they didn't drive too long in one day. But starting next month, tractor-trailers will be required to have electronic logging devices. Car Recalls Are At an All-Time High, But 30% Remain Unrepaired

Vehicle recalls are regularly in the news, warning of inadvertent airbag deployments, faulty door latches, even risks of fire, not to mention the ongoing Takata airbag recall that dwarfs all others. But the steady stream of recalls masks the fact that about 30% of recalled vehicles remain unrepaired on America's roads, according to federal statistics. [Read the article at freep.com.](#)

U.S. Safety Board to Probe Self-Driving Shuttle Crash In Las Vegas

Federal transportation safety officials headed to Las Vegas on Friday to

investigate a collision this week between a self-driving shuttle bus on its first day of service and a truck, which was blamed on human error. The U.S. National Transportation Safety Board, which has the power to issue safety recommendations and determines probable causes of crashes, wants to learn more about "how self-driving vehicles interact with their environment and the other human-driven vehicles around them," said NTSB spokesman Christopher O'Neil. [Read the article at reuters.com.](#)

Tracking Truckers: Electronic Devices Replace Paper Log Books

Trucking companies across the United States will soon enter a new era when it comes to logging drivers' time on the road. Traditionally, drivers use paper logs to prove they didn't drive too long in one day. But starting next month, tractor-trailers will be required to have electronic logging devices. Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](#) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com](#).

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com](#).

Federal REAL ID Available Now At DMV (New York)

The New York Dept. of Motor Vehicles (DMV) began issuing the REAL ID documents Oct. 30, and though not yet required, you can convert to a REAL ID at any time. [Read the article at chronicle-express.com](#).

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com](#).

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com](#).

REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Driverless cars might someday be the answer to less traffic and safer roadways, according to industry experts along with those that are studying the technology. [Read the article at fox17.com.](#)

Temporary License Plates Being Sold For Cash (Texas)

Channel 2 Investigates has discovered the Texas DMV's online Temporary Tag system does not verify the personal information of the those who register vehicles, allowing anyone to get a temporary license plate. [Read the article at click2houston.com.](#)

REGION 3 NEWS

Governor Dayton Apologizes for Ongoing Licensing Problems (Minnesota)

Four months after the launch of a new computer system for vehicle licensing and registration, Gov. Mark Dayton said it remains far from where it should be. Dayton offered an apology, acknowledging glitches and failings in the system. But he also stressed that it often works correctly. [Read the article at mprnews.org.](#)

Driverless Vehicle Lanes On I-94 Being Studied For Foxconn (Wisconsin)

Spurred by Foxconn Technology Group and its plans for a mega-factory in Racine County, state highway planners are studying the possibility of including special lanes for driverless vehicles on I-94. Should that come to pass — and at this point

it is only something being contemplated — it would put Wisconsin in the vanguard of what many believe will be a key part of transportation in the future. [Read the article at *isonline.com*.](#)

'America's Dairyland' Will Stay On Wisconsin License Plates, Governor Says

The slogan "America's Dairyland" will stay on Wisconsin license plates until the cows come home, Gov. Scott Walker declared Tuesday. [Read the article at *host.madison.com*.](#)

Autonomous Vehicle Displayed Outside Capitol (Wisconsin)

An autonomous vehicle was on display Wednesday afternoon outside the state Capitol building. Originally, the Wisconsin Automated Vehicle Proving Grounds team was going to give demonstrations on the shuttle in downtown Madison. However, they canceled the demonstrations after a different Navya shuttle was involved in a crash with a semitrailer in Las Vegas about a week before. [Read the article at *channel3000.com*.](#)

The Government of Alberta is proposing new legislation to deter impaired driving and improve safety on the province's roads. [Read the article at *morinvillenews.com*.](#)

Tests For Pot-Impaired Driving Flawed, Substance Abuse Expert Says (Alberta)

As Alberta adjusts its traffic act in response to the looming legalization of marijuana, an expert says basing stoned-driving laws on THC levels is flawed. [Read the article at *cbc.ca*.](#)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at *nytimes.com*.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at *azcentral.com*.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at *latimes.com*.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at *canadianunderwriter.ca*.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

State MVD Director Resigns For Personal Reasons (New Mexico)

The director of the New Mexico Motor Vehicle Division stepped down earlier this month for undisclosed personal reasons. [Read the article at lcsun-news.com.](#)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at *nytimes.com*.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at *azcentral.com*.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at *latimes.com*.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at *canadianunderwriter.ca*.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

State MVD Director Resigns For Personal Reasons (New Mexico)

The director of the New Mexico Motor Vehicle Division stepped down earlier this month for undisclosed personal reasons. [Read the article at lcsun-news.com.](#)

OTHER NEWS

Tesla Unveils Electric Truck With 500-Mile Range — and Teases a New Sports Car

Elon Musk unveiled the new Tesla Semi on Thursday night — and surprised everybody with a working prototype of a new Roadster sports car whose purpose, he said, is to "give a hard-core smackdown to gasoline cars." ... He was sketchy about the new electric Tesla Semi. Eyebrows popped high when he claimed a range of 500 miles, far more than anyone anticipated. [Read the article at latimes.com.](#)

Self-Driving Trucks May Be Closer Than They Appear

Trucks will someday drive themselves out of warehouses and cruise down freeways without the aid of humans or even a driver's cab — about that there seems little disagreement. The question is how soon that day gets here. [Read the article at post-gazette.com.](#)

Car Recalls Are At an All-Time High, But 30% Remain Unrepaired

Vehicle recalls are regularly in the news, warning of inadvertent airbag deployments, faulty door latches, even risks of fire, not to mention the ongoing Takata airbag recall that dwarfs all others. But the steady stream of recalls masks the fact that about 30% of recalled vehicles remain unrepaired on America's roads, according to federal statistics. [Read the article at freep.com.](#)

U.S. Safety Board to Probe Self-Driving Shuttle Crash In Las Vegas

Federal transportation safety officials headed to Las Vegas on Friday to

investigate a collision this week between a self-driving shuttle bus on its first day of service and a truck, which was blamed on human error. The U.S. National Transportation Safety Board, which has the power to issue safety recommendations and determines probable causes of crashes, wants to learn more about "how self-driving vehicles interact with their environment and the other human-driven vehicles around them," said NTSB spokesman Christopher O'Neil. [Read the article at reuters.com.](#)

Tracking Truckers: Electronic Devices Replace Paper Log Books

Trucking companies across the United States will soon enter a new era when it comes to logging drivers' time on the road. Traditionally, drivers use paper logs to prove they didn't drive too long in one day. But starting next month, tractor-trailers will be required to have electronic logging devices. Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](#) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Driverless cars might someday be the answer to less traffic and safer roadways, according to industry experts along with those that are studying the technology. [Read the article at fox17.com.](#)

Temporary License Plates Being Sold For Cash (Texas)

Channel 2 Investigates has discovered the Texas DMV's online Temporary Tag system does not verify the personal information of the those who register vehicles, allowing anyone to get a temporary license plate. [Read the article at click2houston.com.](#)

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the AAMVA Awards Program online for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com.](#)

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com.](#)

Federal REAL ID Available Now At DMV (New York)

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the [NMVTIS Law Enforcement Working Group](#). The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment. Learn more about the NMVTIS LE Working Group online. Interested parties who qualify for this position are encouraged to [review and submit an application](#) to Dianne Graham at committees@aamva.org by **November 24, 2017**.

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com.](#)

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com.](#)

Federal REAL ID Available Now At DMV (New York)

The New York Dept. of Motor Vehicles (DMV) began issuing the REAL ID documents Oct. 30, and though not yet required, you can convert to a REAL ID at any time. [Read the article at chronicle-express.com.](#)

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com.](#)

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com.](#)

REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at nytimes.com.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at azcentral.com.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at latimes.com.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at canadianunderwriter.ca.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

State MVD Director Resigns For Personal Reasons (New Mexico)

The director of the New Mexico Motor Vehicle Division stepped down earlier this month for undisclosed personal reasons. [Read the article at lcsun-news.com.](#)

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the AAMVA Awards Program online for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

OUR EVENTS

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the AAMVA Awards Program online for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the [NMVTIS Law Enforcement Working Group](#). The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment. Learn more about the NMVTIS LE Working Group online. Interested parties who qualify for this position are encouraged to [review and submit an application](#) to Dianne Graham at committees@aamva.org by **November 24, 2017**.

REGION 1 NEWS

Thousands of District of Columbia Drivers Might Deserve a Refund From the DMV

According to a 7 On Your Side discovery, thousands of drivers might want to ask the D.C. Department of Motor Vehicles (DMV) for a red light camera refund. Mid-Atlantic AAA says red light cameras can't distinguish between drivers running a red light and those making a rolling right turn on red. Last year, DC red light cameras ticketed more than 92,000 drivers for running a red light. [Read the article at wjla.com](#).

Lawmakers Handicapped Placard Abuse Bill Goes To Governor's Desk (Massachusetts)

If you have a handicapped placard, you may know the situation all too well: pulling up to park, only to find that the designated spaces are all taken. Massachusetts lawmakers sent a bill to Governor Baker's desk on Wednesday that would set new penalties for abusing a handicapped placard or plate. [Read the article at wwlp.com](#).

Federal REAL ID Available Now At DMV (New York)

The New York Dept. of Motor Vehicles (DMV) began issuing the REAL ID documents Oct. 30, and though not yet required, you can convert to a REAL ID at any time. [Read the article at chronicle-express.com](#).

Senate OKs Bill To Let Police Use Radar Guns (Pennsylvania)

For a second straight year, the Pennsylvania Senate is advancing legislation to permit Pennsylvania's municipal police departments to use radar to catch speeders. [Read the article at wgal.com](#).

A Looming Headache for Rhode Island DMV As Federal Deadline Nears

With the launch of its decade-in-the-making computer system in the rear-view mirror, the state Division of Motor Vehicles is planning its next big project, one that will likely make renewing a Rhode Island drivers license a lot more complicated. To meet a looming federal deadline for making state identification cards more secure, the Rhode Island DMV is getting ready to begin confirming residents' identities by checking their birth certificates and Social Security cards when they renew their drivers licenses. [Read the article at providencejournal.com](#).

REGION 2 NEWS

More Secure State Driver's Licenses Raise Eyebrows in Florida

Banks, businesses and agencies that require people to present picture identification should be aware that the Florida Department of Highway Safety and

Motor Vehicles has changed the look of its state-issued licenses and ID cards. The change occurred in Alachua County last week, and the Alachua County Tax Collector's Office, which handles the issuance of state-issued licenses and ID cards in the county, wants people to know the different-looking cards are here. [Read the article at govtech.com.](#)

Local Trucking School Faked Passing Scores On License Testing (Florida)

Hundreds of truckers are driving big rigs with licenses that should not have been given, according to state investigators. The Florida Department of Highway Safety and Motor Vehicles launched an investigation into Key Power Driving School Inc. and found its practices posed immediate, serious danger to public health, safety and welfare. The state terminated its agreement with Key Power and revoked the school's commercial driving license testing company license. [Read the article at nbc-2.com.](#)

First Look At the New South Carolina Driver's License You'll Need To Travel In Airports

This is what your South Carolina driver's license should look like to be considered a REAL ID. The state's most secure driver's licenses and identification cards are still being tested, but the South Carolina Department of Motor Vehicles released the images of the new REAL ID and non-compliant cards residents will begin seeing in the first quarter of 2018. [Read the article at thestate.com.](#)

Risky Rides: Unscrupulous Dealerships Selling Salvage Vehicles To Customers (Texas)

Lawmakers are unaware of a public safety issue in their own parking lot. Independent dealers can purchase salvage vehicles from auctions, put a fake paper license plate on them and sell them for a profit without making the changes necessary to make them safe – and legal – for residents to drive. Criminals can also use salvage vehicles or fake plates to mask larger crimes with cartel involvement, such as money laundering and trafficking of drugs and humans. [Read the article at kxan.com.](#)

Nashville Transit Leaders Embrace Driver-less Cars In Push To Improve Traffic Woes (Tennessee)

Driverless cars might someday be the answer to less traffic and safer roadways, according to industry experts along with those that are studying the technology. [Read the article at fox17.com.](#)

Temporary License Plates Being Sold For Cash (Texas)

Channel 2 Investigates has discovered the Texas DMV's online Temporary Tag system does not verify the personal information of the those who register vehicles, allowing anyone to get a temporary license plate. [Read the article at click2houston.com.](#)

REGION 3 NEWS

Governor Dayton Apologizes for Ongoing Licensing Problems (Minnesota)

Four months after the launch of a new computer system for vehicle licensing and registration, Gov. Mark Dayton said it remains far from where it should be. Dayton offered an apology, acknowledging glitches and failings in the system. But he also stressed that it often works correctly. [Read the article at mprnews.org.](#)

Driverless Vehicle Lanes On I-94 Being Studied For Foxconn (Wisconsin)

Spurred by Foxconn Technology Group and its plans for a mega-factory in Racine County, state highway planners are studying the possibility of including special lanes for driverless vehicles on I-94. Should that come to pass — and at this point

it is only something being contemplated — it would put Wisconsin in the vanguard of what many believe will be a key part of transportation in the future. [Read the article at isonline.com.](#)

'America's Dairyland' Will Stay On Wisconsin License Plates, Governor Says

The slogan "America's Dairyland" will stay on Wisconsin license plates until the cows come home, Gov. Scott Walker declared Tuesday. [Read the article at host.madison.com.](#)

Autonomous Vehicle Displayed Outside Capitol (Wisconsin)

An autonomous vehicle was on display Wednesday afternoon outside the state Capitol building. Originally, the Wisconsin Automated Vehicle Proving Grounds team was going to give demonstrations on the shuttle in downtown Madison. However, they canceled the demonstrations after a different Navya shuttle was involved in a crash with a semitrailer in Las Vegas about a week before. [Read the article at channel3000.com.](#)

Alberta Bolstering Drug-Impaired Driving Laws

The Government of Alberta is proposing new legislation to deter impaired driving and improve safety on the province's roads. [Read the article at morinvillenews.com.](#)

Tests For Pot-Impaired Driving Flawed, Substance Abuse Expert Says (Alberta)

As Alberta adjusts its traffic act in response to the looming legalization of marijuana, an expert says basing stoned-driving laws on THC levels is flawed. [Read the article at cbc.ca.](#)

Where Self-Driving Cars Go to Learn (Arizona)

Arizona has since built upon the governor's action to become a favored partner for the tech industry, turning itself into a live laboratory for self-driving vehicles. Over the past two years, Arizona deliberately cultivated a rules-free environment for driverless cars, unlike dozens of other states that have enacted autonomous vehicle regulations over safety, taxes and insurance. [Read the article at nytimes.com.](#)

Arizona MVD Combines City, State Tax Payments On Out-of-State Vehicles

Arizonans register about 22,000 vehicles brought in from other states each year, and a new system is expected to simplify and speed the process for collecting taxes when they are registered. [Read the article at azcentral.com.](#)

California Clears the Way For Testing Of Fully Driverless Cars. Local, Federal Interests Have Concerns

At the beginning of the year, efforts to put driverless cars on California's streets looked like they were careening. Now, after this year's release of guidelines from the state Department of Motor Vehicles, the mood has changed. [Read the article at latimes.com.](#)

Liability of Self-Driving Automakers In the Spotlight (California)

California regulators are embracing a General Motors recommendation that would help makers of self-driving cars avoid paying for accidents and other trouble, raising concerns that the proposal will put an unfair burden on vehicle owners. [Read the article at canadianunderwriter.ca.](#)

More Than 64,000 Veterans Apply For Veteran Designation On California Driver Licenses

In the two years since Gov. Edmund G. Brown, Jr. signed legislation authorizing a veteran designation on California driver licenses and identification cards, more than 64,000 veterans have visited their county Veterans Service Office to apply and the California Department of Motor Vehicles has issued more than 55,000. In the process, veterans learned about their eligibility for other benefits, and 28 percent applied for additional benefits. [Read the article at lakeconews.com.](#)

Millions of Californians Will Soon Have To Visit the DMV. Here's Why

As the deadline to meet new federal standards for state licenses and ID cards approaches, Department of Motor Vehicles offices in Sacramento and around the state are preparing for a rush. The new standards mean California fliers who rely on their driver's license to board domestic flights will no longer be able to do so beginning Oct. 1, 2020, unless they come equipped with the federally approved IDs and licenses or a different form of acceptable identification, such as a valid U.S. passport or military ID, the DMV said. [Read the article at sacbee.com.](#)

Governments Compete To Take the Wheel On Rules For Self-Driving Cars (California / Nevada)

After crossing the border between California and Nevada, Audi's self-driving test car pulls over. Nothing is wrong. But the A7 saloon must change number plates if it is to continue in driverless mode while passing through Nevada. It is just one of the quirks of the disparate rules governing testing and development of autonomous vehicles in the US. [Read the article at ft.com.](#)

State MVD Director Resigns For Personal Reasons (New Mexico)

The director of the New Mexico Motor Vehicle Division stepped down earlier this month for undisclosed personal reasons. [Read the article at lcsun-news.com.](#)

OTHER NEWS

Tesla Unveils Electric Truck With 500-Mile Range — and Teases a New Sports Car

Elon Musk unveiled the new Tesla Semi on Thursday night — and surprised everybody with a working prototype of a new Roadster sports car whose purpose, he said, is to "give a hard-core smackdown to gasoline cars." ... He was sketchy about the new electric Tesla Semi. Eyebrows popped high when he claimed a range of 500 miles, far more than anyone anticipated. [Read the article at latimes.com.](#)

Self-Driving Trucks May Be Closer Than They Appear

Trucks will someday drive themselves out of warehouses and cruise down freeways without the aid of humans or even a driver's cab — about that there seems little disagreement. The question is how soon that day gets here. [Read the article at post-gazette.com.](#)

Car Recalls Are At an All-Time High, But 30% Remain Unrepaired

Vehicle recalls are regularly in the news, warning of inadvertent airbag deployments, faulty door latches, even risks of fire, not to mention the ongoing Takata airbag recall that dwarfs all others. But the steady stream of recalls masks the fact that about 30% of recalled vehicles remain unrepaired on America's roads, according to federal statistics. [Read the article at freep.com.](#)

U.S. Safety Board to Probe Self-Driving Shuttle Crash In Las Vegas

Federal transportation safety officials headed to Las Vegas on Friday to

investigate a collision this week between a self-driving shuttle bus on its first day of service and a truck, which was blamed on human error. The U.S. National Transportation Safety Board, which has the power to issue safety recommendations and determines probable causes of crashes, wants to learn more about "how self-driving vehicles interact with their environment and the other human-driven vehicles around them," said NTSB spokesman Christopher O'Neil. [Read the article at reuters.com.](#)

Tracking Truckers: Electronic Devices Replace Paper Log Books

Trucking companies across the United States will soon enter a new era when it comes to logging drivers' time on the road. Traditionally, drivers use paper logs to prove they didn't drive too long in one day. But starting next month, tractor-trailers will be required to have electronic logging devices. Hello Amir,

Your results have revealed two bugs in my implementation. Records with inactive titles were not appropriately excluded, and active "TITLE ONLY" records with old model years were inappropriately excluded due to their inherent lack of registration. I've addressed these issues and checked every conflict listed to ensure each has been resolved. Please find attached the latest output. I will forward these files to Dave Monroe and ask him to upload the files through file transfer.

If you'd still like to meet, I'm available any time from now through Wednesday evening.

Hi Dillon,

I have attached the email that contains the batch spec.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

Can I please have a copy of this documentation? I've attached a copy of the documentation I was given from the original developer which seems to be a bit less detailed.

Thank you,

Dillon Salsman-Pressley • Programmer Analyst

Subject: RE: AK NMVTIS - Batch Initial Load

This email comes from an external source, so remember, Think Before You Click!

Hi Dillon,

This requirement is in the batch spec in section 8.3.

VIN POINTER FILE Description

In addition to the vehicle type include/exclude criteria noted above, other rules also restrict what vehicles are added to the VIN Pointer File. Vehicles that, as a group, have non-standard VINs will be excluded from the VIN Pointer File (non-standard VINs do not adhere to the format defined in the Final Rule on Vehicle Identification Number Requirements provided by the Department of Transportation, National Highway Traffic Safety Administration). As an example, golf carts are considered recreational vehicles (a vehicle type on the "include" list), but golf carts will not be placed on the VIN Pointer File because they are typically assigned non-standard VINs.

In addition, the VIN Pointer will only contain titles for vehicles that meet at least one of the following criteria:

- Vehicle has an active registration and an active title;
- Vehicle has an active title and the vehicle has a model year of 1981 or later or
- Vehicle has an active registration and the registration is the proof of ownership.

An active title is one that the jurisdiction considers to represent current ownership of a vehicle. The jurisdiction maintains current data regarding the title, and ownership is negotiable based on the title. A title becomes inactive if the vehicle is retitled by another jurisdiction (the new jurisdiction now has the active title and the title in the old jurisdiction is inactive). A title also becomes inactive when a jurisdiction marks the title record as purged (or a similar status) so that the jurisdiction no longer considers the title record to represent current ownership of the vehicle. Regardless, states should not provide the central site title records that are inactive.

Model year restrictions were applied because of the high incidence of nonstandard VIN duplicates on pre-1981 vehicles. During the pilot, counts of duplicate VINs from 1981 and earlier were in the range of 30 percent, while the count of duplicate VINs from 1982 and later was between two and five percent.

The rules above exclude vehicles that:

- Have been garaged, and
- Have an active registration only, but the registration is not the proof of ownership (the vehicle will be added to the VIN Pointer File by the state having the active title).

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - Batch Initial Load

Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided. **Yes, if vehicle model year is pre-1981 and if it does not have active registration then it should NOT be reported to NMVTIS.**

Can you please ensure this rule is enforced and send me the files again so I can verify

Thank You

Subject: Re: AK NMVTIS - Batch Initial Load

Hello Amir,

I've responded to all of the test cases in this group:

Following test cases I was expecting data but did not get the data

002 - This record was sent. The title can be found on line 38 and the brand on line 8 of the previous execution, or 39 and 8 of the current execution.

096 - Vehicle Type Map say do not include LP (Pole)

152 - Was trailer, should've been truck. Should now be fixed.

159 - Was trailer, should've been truck. Should now be fixed.

164 - Was trailer, should've been truck. Should now be fixed.

175 - Was trailer, should've been truck. Should now be fixed.

I started responding to each test case in the second group, but I've noticed the errors fall into three categories:

1. Trucks that should've been trailers.
2. Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided.
3. Records were not appropriately being filtered when title was inactive.

I've fixed several (but probably not all) of the truck/trailer mismatches. I've added the necessary changes to the batch file code to restrict inactive records. This seems to have removed dozens of the failing records. Can you please verify again before we continue with narrower issues? Once I have confirmation on the registration restriction, I can add that if necessary.

Thank you,

Hi,

I notice following

There are records where the title issue date and title status is set to NULL, these cannot be set to NULL, these should have valid values

There are records with odometer reading of 000000000, we do not allow odometer reading of all zeros, either it has to be UNKNOWN or a valid numeric reading

When record has registration only and no title, the Registration issue date should be used as Title Issue Date and Plate number should be populated in the Title Number field.

I looked at the test results from back in 2010 and see that AK had used the odometer readings of UNKNOWN and EXEMPT

Thank You

NMVTIS Reengineering Batch Procedures Changes

January 18, 2013

NMVTIS File Transfer Server

The IP address for conducting batch file transfer with NMVTIS in Production has changed to the following:

Environment (Production Primary)	
NMVTIS SFTP IP Address:	69.60.152.72
NMVTIS SFTP Port:	22

NMVTIS batch file submission and SEW file retrieval window

For Monday to Saturday Processing

- States should submit the NMVTIS batch update and batch inquiry files between 9:00 PM and 7:00 AM ET (Eastern Time).
- States can retrieve the Summary Error and Warning (SEW) files, batch inquiry output files and batch N* message files between 2:00 AM and 7:00 AM ET. These SEW files and output files will correspond to the input files received by 7:00 AM ET the previous day.
- *Refer to sample submission below:*
 - Files submitted to NMVTIS between Sunday from 9:00PM and Monday 7:00AM ET
 - File processing begins at 7:00 PM ET on Monday
 - Files available for States to retrieve from 2:00 AM ET – 7:00AM ET on Tuesday

For Sunday Processing

- States should submit the NMVTIS batch update and batch inquiry files between Saturday 9:00 PM and Sunday 1:00 AM ET (Eastern Time) or between Sunday 5:00 AM and 11:00 AM ET.
- States can retrieve the Summary Error and Warning (SEW) files, batch inquiry output files and batch N* message files between Sunday 5:00 AM and 11:00 AM ET. These SEW files and output files will correspond to the input files received by 7:00 AM ET the previous day.
- *Refer to sample submission below:*
 - Files submitted to NMVTIS on Friday from 9:00PM to 7:00AM ET on Saturday
 - File processing begins at 7:00 PM ET on Saturday
 - Files available for States to retrieve from 5:00 AM ET – 11:00AM ET on Sunday
 - Files submitted to NMVTIS on Saturday from 9:00PM to 1:00AM ET on Sunday (or on Sunday from 5:00AM-11:00AM ET)
 - File processing begins at 7:00 PM ET on Sunday
 - Files available for States to retrieve from 2:00 AM ET – 7:00AM ET on Monday

NOTE: The reason for a different file retrieval window on Sunday is to allow for NMVTIS weekly maintenance window which is 1:00 AM to 5:00 AM ET.

IMPORTANT: All file transfers must be conducted during the batch submission/retrieval window. Please contact the AAMVA Helpdesk at Helpdesk@aamva.org or 1-888-226-8280 option 1 if you encounter a file transfer issue and you are not able to send or pick up files during the specified times.

Disaster Recovery

In the event of catastrophic system failure, a fail over site has been established to prevent service disruption.

Environment (Production Secondary)	
NMVTIS SFTP Server IP Address:	69.60.152.8
NMVTIS SFTP Port:	22

Test Environment

The following environment is available for states to conduct file transfer testing and connectivity testing with the new NMVTIS File Transfer server:

Environment (CERT 'formerly known External Test')	
NMVTIS SFTP Server IP Address:	69.60.152.80
NMVTIS SFTP Port:	22

Directory/folder structure has changed

The directory/folder structure for accessing the NMVTIS file transfer server using SFTP is as follows:

- Location for putting batch files on the server: /
- Location to retrieve files from the server: /Output

NOTE: The former */amv/AMVXX01 (where 'XX' represents the state code)* folders have been removed.

File naming conventions will remain the same

Send Files to NMVTIS File Transfer Server

Following are the naming standards that **MUST** be used when sending update load files to the NMVTIS SFTP host:

Brand Add

X_BRADD.txt

RECFM=FB,LRECL=060

Brand Undo

X_BRUNDO.txt

RECFM=FB,LRECL=49

Title Add

X_VINADD.txt

If you are using sequence number:

RECFM=FB,LRECL=126

If you are not using sequence number:

RECFM=FB,LRECL=104

Title Modify

X_VINMOD.txt

RECFM=FB,LRECL=151

Title Purge

X_VINPUR.txt

RECFM=FB,LRECL=48

Title Undo

X_VINUNDO.txt

RECFM=FB,LRECL=48

Where:

X is T or P (Test or Production)

Retrieve Files from NMVTIS File Transfer Server

Following are the naming standards that **MUST** be used when retrieving SEW files from the NMVTIS SFTP host (note that there are 2 SEW files produced for each Update load file sent. The first is produced after the Edit, the second after the Update):

Brand Add SEW

X_BRADD_Z_SEW.txt

RECFM=FB,LRECL=121

Brand Undo SEW

X_BRUNDO_Z_SEW.txt

RECFM=FB,LRECL=110

Title Add SEW

X_VINADD_Z_SEW.txt

If you are using sequence number:

RECFM=FB,LRECL=187

If you are not using sequence number:

RECFM=FB,LRECL=165

Title Modify SEW

X_VINMOD_Z_SEW.txt

RECFM=FB,LRECL=212

Title Purge SEW

X_VINPUR_Z_SEW.txt

RECFM=FB,LRECL=109

Title Undo SEW

X_VINUNDO_Z_SEW.txt

RECFM=FB,LRECL=109

Notification Messages

X_OUTAMI.txt

RECFM=VB,LRECL=3634

Where:

X is T or P (Test or Production)

Z is E or U (Edit or Update)

Dillon,

When I connect to CERT, the default folder is /Output/ I placed copies of the file there and then in the root as well.

Dave

Subject: FW: AK NMVTIS - Batch Initial Load

Hello Dave,

Would you please place the two attached TXT files on NMVTIS's CERT fileserver? According to the documentation I have (also attached) the files should be placed in the root directory.

Thank you,

Subject: RE: AK NMVTIS - Batch Initial Load

Hello Amir,

Your results have revealed two bugs in my implementation. Records with inactive titles were not appropriately excluded, and active "TITLE ONLY" records with old model years were inappropriately excluded due to their inherent lack of

registration. I've addressed these issues and checked every conflict listed to ensure each has been resolved. Please find attached the latest output. I will forward these files to Dave Monroe and ask him to upload the files through file transfer.

If you'd still like to meet, I'm available any time from now through Wednesday evening.

Thank you,

Hello Amir,

Here's the latest execution. I've added checks for being an NMVTIS vehicle type, and either 1981+ Model Year or current registration status. These results should be considerably better.

Thank you,

Hi Dillon,

I have attached the email that contains the batch spec.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

Can I please have a copy of this documentation? I've attached a copy of the documentation I was given from the original developer which seems to be a bit less detailed.

Thank you,

[Hi Dillon,](#)

[This requirement is in the batch spec in section 8.3.](#)

VIN POINTER FILE Description

In addition to the vehicle type include/exclude criteria noted above, other rules also restrict what vehicles are added to the VIN Pointer File. Vehicles that, as a group, have non-standard VINs will be excluded from the VIN Pointer File (non-standard VINs do not adhere to the format defined in the Final Rule on Vehicle Identification Number Requirements provided by the Department of Transportation, National Highway Traffic Safety Administration). As an example, golf carts are considered recreational vehicles (a vehicle type on the "include" list), but golf carts will not be placed on the VIN Pointer File because they are typically assigned non-standard VINs.

In addition, the VIN Pointer will only contain titles for vehicles that meet at least one of the following criteria:

- Vehicle has an active registration and an active title;
- Vehicle has an active title and the vehicle has a model year of 1981 or later or
- Vehicle has an active registration and the registration is the proof of ownership.

An active title is one that the jurisdiction considers to represent current ownership of a vehicle. The jurisdiction maintains current data regarding the title, and ownership is negotiable based on the title. A title becomes inactive if the vehicle is retitled

by another jurisdiction (the new jurisdiction now has the active title and the title in the old jurisdiction is inactive). A title also becomes inactive when a jurisdiction marks the title record as purged (or a similar status) so that the jurisdiction no longer considers the title record to represent current ownership of the vehicle. Regardless, states should not provide the central site title records that are inactive.

Model year restrictions were applied because of the high incidence of nonstandard VIN duplicates on pre-1981 vehicles. During the pilot, counts of duplicate VINs from 1981 and earlier were in the range of 30 percent, while the count of duplicate VINs from 1982 and later was between two and five percent.

The rules above exclude vehicles that:

- Have been garaged, and
- Have an active registration only, but the registration is not the proof of ownership (the vehicle will be added to the VIN Pointer File by the state having the active title).

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - Batch Initial Load

Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided. **Yes, if vehicle model year is pre-1981 and if it does not have active registration then it should NOT be reported to NMVTIS.**

Can you please ensure this rule is enforced and send me the files again so I can verify

Thank You

Subject: Re: AK NMVTIS - Batch Initial Load

Hello Amir,

I've responded to all of the test cases in this group:

Following test cases I was expecting data but did not get the data

002 - This record was sent. The title can be found on line 38 and the brand on line 8 of the previous execution, or 39 and 8 of the current execution.

096 - Vehicle Type Map say do not include LP (Pole)

152 - Was trailer, should've been truck. Should now be fixed.

159 - Was trailer, should've been truck. Should now be fixed.

164 - Was trailer, should've been truck. Should now be fixed.

175 - Was trailer, should've been truck. Should now be fixed.

I started responding to each test case in the second group, but I've noticed the errors fall into three categories:

1. Trucks that should've been trailers.
2. Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided.
3. Records were not appropriately being filtered when title was inactive.

I've fixed several (but probably not all) of the truck/trailer mismatches. I've added the necessary changes to the batch file code to restrict inactive records. This seems to have removed dozens of the failing records. Can you please verify again before we continue with narrower issues? Once I have confirmation on the registration restriction, I can add that if necessary.

Thank you,

Hi,

I took a look at the spreadsheet and please go ahead and run your program to extract the initial load files and then send it to me.

Thank You

Hi,

I notice following

There are records where the title issue date and title status is set to NULL, these cannot be set to NULL, these should have valid values

There are records with odometer reading of 000000000, we do not allow odometer reading of all zeros, either it has to be UNKNOWN or a valid numeric reading

When record has registration only and no title, the Registration issue date should be used as Title Issue Date and Plate number should be populated in the Title Number field.

I looked at the test results from back in 2010 and see that AK had used the odometer readings of UNKNOWN and EXEMPT

Thank You

Hello Amir,

Please find attached a copy of the batch initial load test plan with all test cases filled out. I'll be creating the batch files shortly, for at least a format check.

Thank you,

Dillon Salsman
